

AVIATOR OFF ON UNANNOUNCED OCEAN FLIGHT

EDISON BETTER TODAY; HE WAS NEAR COLLAPSE

Excitement of Celebration Yesterday Told on Aged Inventor

Detroit, Mich., Oct. 22.—(UP)—Refreshed by a night's sleep at the Henry Ford home, Thomas Alva Edison today had almost entirely recovered from the attack of nervousness and fatigue which almost marred Light's Golden Jubilee in his honor.

No information regarding Edison's condition would be given out at the Ford home today, but it was learned the 82-year-old inventor had taken a short walk about the Ford estate despite the damp weather.

Detroit, Mich., Oct. 22.—(UP)—Thomas A. Edison wore his crown of laurels happily although feebly today.

The inventor, his 83 years bearing more heavily on his strength under the tax of elaborate ceremonies yesterday in which the world paid tribute to his genius and still semi-conscientious from a recent attack of pneumonia, almost collapsed last night.

At the home of Mr. and Mrs. Henry Ford, where he was taken after the previous day, he was resting easily today and physicians who had visited him said they did not believe he was in danger.

In a replica of the laboratory in which he perfected his first incandescent light bulb, the electrical wizard performed again the epochal feat. Then he almost collapsed.

The laboratory had been constructed at the new Edison Institute of Technology, which was dedicated by the ceremonies. Regarding his strength, Edison went to the banquet table in the administration building of the institute where he spoke to millions of radio listeners over the world, as well as to the 500 persons seated in the hall.

Essence of Modesty. His talk was the essence of modesty and simplicity. He stressed the importance of the work of pioneers in the electrical field before him and of the loyal men who worked with him.

"If I have contributed to the happiness of my fellow man, I am happy," he said.

President Hoover then spoke, paying tribute to men of science.

"Our scientists and inventors are amongst our most priceless possessions," the President said. "There is no sum that the world could not afford to pay these men who have the originality of mind, that devotion and industry to carry scientific thought forward in steps and strides until it spreads to the comfort of every home; not by all the profits of all the banks in the world can we measure the contribution which these men and women make to our progress."

Edison's waning store of strength was not equal to the demand. He listened to the President's words for a few minutes, then went back to the couch in another room where he had gone to lie down for a brief rest after concluding his own talk.

Notables at Table. Madame Curie, co-discoverer of radium, was seated at President Hoover's right at the banquet table. At his left were Edison and Henry Ford.

Following the President's address, a speech by Prof. Albert Einstein, exponent of the theory of relativity, was rebroadcast from Berlin.

Owen D. Young, toastmaster at the banquet, had read messages of congratulation to Edison and the nation from President von Hindenburg of Germany, the Prince of Wales, and Commander Richard L. Byrd, the latter sending his good wishes from the far off Antarctic.

By the time the President's party left the hall, the aged inventor had recovered sufficiently to rise, take up his hat and stand at attention as Mr. Hoover left the building.

Lieut. Commander Joel T. Boone, the President's personal physician, had treated Edison administering restoratives, while the inventor was resting on the couch.

As soon as President Hoover had gone, Edison walked unsteadily to an automobile. He was driven directly to the home of Mr. and Mrs. Ford, who hosts on his visit to the scenes of his early life. A physician who accompanied him remained at the Ford home about 20 minutes, and left after satisfying himself the inventor was in no immediate danger.

Tried to Hide Illness. Edison recently recovered from an attack of pneumonia, which has sapped his strength. He had tried to keep the illness from his family, telling them it was nothing but a cold. The physician, visiting in the Edison home, realized at once the seriousness of the illness and persuaded Edison to go to bed.

The public knew nothing of the illness.

Stranger Found Dead Near Ashton

LAKE MICHIGAN LASHED BY ONE OF WORST STORMS THIS YEAR; MEN ON BARGE MISSING

Claims Edison Not Inventor of Electric Lights

New Haven, Conn., Oct. 22.—(UP)—While Thomas A. Edison in Dearborn was given unusual honors on the 50th anniversary of his invention of the incandescent electric light, the inventor of the first electric light, William Wallace, lies unassuming in Pine Grove cemetery, Ansonia, the New Haven Times said today in a copyrighted story.

Several years before Edison produced his first incandescent bulb, says the Times story, Wallace conceived and manufactured in quantity an electric carbon lamp. The Wallace lamp was placed on exhibition at the centennial exposition in Philadelphia in 1876 and thereafter was used with a reflector on many locomotives.

Wallace announced his invention about the time Edison was making his first experiments with an enclosed light, the newspaper relates, and Edison paid a visit to Ansonia to confer with Wallace.

Although Wallace saw his carbon arc light supplemented by Edison's bulbs, he continued for many years to be a close friend of Edison, the paper says.

Ring of Lawyers Accused of Theft

New York, Oct. 22.—(UP)—Police commissioner Gover Whalen's undercover squad has solved the theft of \$200,000 in bonds from the offices of Arthur E. Frank & Co., brokers.

A ring of lawyers, Whalen said, had been implicated in the theft and indictments were expected to be returned today.

Whalen said detectives had recovered \$110,000 of the bonds.

The bonds were stolen from the Frank office where James Weitz, 16, messenger boy, had placed them on a bench while he walked to a water cooler to get a drink. Weitz was exonerated soon after the robbery.

Dixon City Council Spends Money Away

The city's new building code, adopted by the city council is now available at the office of City Clerk Blake C. Grover. The ordinance in book form was delivered this morning from the presses of the Bishop Printing Company at Sterling where the ordinance was printed.

IDLE MINE REOPENED. Marion, Ill., Oct. 22.—(UP)—The Old Orchard mine here, idle for six years, resumed operation yesterday. It will employ about 15 men. The operating company is headed by Charles Gent of Marion.

Madame Curie, co-discoverer of radium, was seated at President Hoover's right at the banquet table. At his left were Edison and Henry Ford.

Following the President's address, a speech by Prof. Albert Einstein, exponent of the theory of relativity, was rebroadcast from Berlin.

Owen D. Young, toastmaster at the banquet, had read messages of congratulation to Edison and the nation from President von Hindenburg of Germany, the Prince of Wales, and Commander Richard L. Byrd, the latter sending his good wishes from the far off Antarctic.

LOCAL REPORT. For the 24 hours ending at 7 A. M. today: Maximum temperature, 63; minimum, 33. Partly cloudy. Precipitation, 12 inches.

Coast Guard Is Busy Seeking Barge and Saving Craft

Chicago, Oct. 22.—(UP)—Two men, adrift all night in a bobbing barge in the first severe Lake Michigan storm of the season, were rescued today by the steamer Schwab, radio advices to the Chicago coast guard said today.

The Schwab came upon the helpless oil barge shortly after dawn, stopped by several hours trying to get a line to the drifting barge, and then rescued the two men when the barge sank under the high waves.

Chicago, Oct. 22.—(UP)—One of the worst storms in memory of the coast-guardmen lashed the western shores of Lake Michigan today imperiling lives of sailors caught out on the lake and battering moored pleasure craft.

A wind of 30 mile sustained velocity, rising at times in gusts to 50 miles an hour, dashed waves 20 to 30 feet high against the protecting breakwaters along the Chicago coastline.

Two men, drifting somewhere on the lake in an oil barge were sought by a coast guard crew headed by Chief Mate C. E. Howell. Coast guardsmen feared the barge had gone down.

The barge broke loose early today from the tug Butterfield, when waves, some of them described by Butterfield's captain at 40 feet high, snapped the tow line. With the burden of the barge gone, the tug rolled and pitched so much it was unable to pick up the line. It put into Chicago and notified Capt. John O. Anderson, chief of the coast guard who dispatched the crew to search for the barge and its crew.

The storm broke last night and by early this morning high waves, propelled by the high wind, broke over pleasure craft moored at several harbors along the Chicago waterfront.

Two yachts were saved from the waves by the coast guard after a hard battle. The waves dashed the craft loose from their mooring behind the Yacht Club breakwater. Water poured over the breakwater and threatened to ground the boats moored along Grant Park.

NOTHING FOUND ON BODY IS CLUE TO HIS IDENTITY

Manner of Death Also is Unsolved Mystery this Afternoon

The body of an unidentified man, comfortably dressed, was discovered face downward in a pool of water in a ditch along the Chicago & North-Western right of way, one-half mile west of Ashton this morning about 8 o'clock by members of the crew of a freight train. News of the discovery was reported at once to Coroner Frank M. Banker at Franklin Grove who went to Ashton and took charge of the body. It was removed to the Stephan mortuary where an inquest will be conducted tomorrow morning at 10 o'clock.

The man appears to have fallen or to have been shoved from a train near Ashton probably during the early part of last evening. One leg was broken and there was a wound on the head, believed to have caused his death. There was a possibility of his having engaged in an altercation on a train and having been shoved off, it was stated after Coroner Banker's investigation this morning. At 1:30 this afternoon Sheriff Ward Miller's office had not been notified of the finding of the body.

The man might have met with foul play was suspected when it was found that there was no money or papers in the pockets of his clothing. Coroner Banker expressed his belief that the man might be about 40 years of age, five feet seven inches in height and weighing about 145 pounds. He wore an overcoat and was comfortably dressed. He had dark hair and blue eyes.

When discovered, the body was lying face downward in a ditch beside the main line tracks of the North-Western just west of Ashton, in a pool of water. There was nothing near the body to indicate that there had been a struggle on the ground and the supposition following the coroner's investigation was that the stranger may have fallen from a speeding train.

Sheriff Miller was notified of the finding of the body by the Telegraph at a late hour this afternoon.

JUDGE EDWARDS ORDERS GIRL'S RELEASE FROM STATE HOSPITAL UPHOLDS MANAGING OFFICER

Holds Local Institution Can Legally Receive Mental Defectives

Judge Harry Edwards in the Circuit Court this morning ordered the release from the Dixon state hospital of Miss Frances Hubert of Stephenson county, at the close of a hearing on a habeas corpus action filed by Attorney Douglas Pattison of Freeport. In his findings, Judge Edwards held that the management of the Dixon state hospital was justified in receiving and detaining the young woman and that the institution was legally defined for the reception and treatment of feeble minded persons.

The release of the young woman was ordered on the grounds that the commitment from Kane county on April 17, 1923, was "badly defective" using the term as expressed by Judge Edwards. The petition, setting forth that the young woman was believed to be feeble minded was a conclusion and not a finding, the court held, adding that the petition should have set forth facts. The petition, Judge Edwards further held, was not sufficient and no summons was issued. The girl, a minor, was not represented in court. The court referred to the statutes which require that two reputable qualified physicians compose the examining board, and held that there was no recital in the Kane County Court records that the examiners were such. Judge Edwards further held that nothing appeared in the record of the case to show that the late Judge S. N. Hoover ever approved of the commission's findings, where his formal approval was necessary.

"A dispute and contradiction is very apparent in the records of the case," Judge Edwards stated. "It is my holding that Dr. Warren G. Murray, managing officer of the Dixon state hospital, properly received the young woman and has been justified in retaining her as a mental deficient, and that the institution at that time and at present is duly authorized to receive mental defectives. Because of the badly defective commitment, it is the order of the court that the young woman be discharged from the institution."

Attorney Pattison of Freeport was in court and answered the arguments of State's Attorney Mark C. Keller who appeared in the interest of the Dixon state hospital. The Freeport attorney in his closing argument, held that the local institution was never legally defined as an institution for the treatment and reception of feeble minded persons and that the state hospital at the time of his client's commitment from Kane county was not in existence.

Sheep: receipts 14,000; market slow; strong; native lambs mostly 12.50; some held higher; fat ewes 4.25-5.25; feeding lambs strong to 25c higher; 12.50-13.25; lambs, good and choice 92 lbs down 12.00-13.00; medium 11.00-12.00; cull and common 7.50-11.00; ewes, medium to choice 150 lbs down 4.00-5.50; cull and common 2.25-4.00; feeder lambs good and choice 12.50-13.50.

Official estimated receipts for tomorrow: cattle 12,000; hogs 22,000; sheep 18,000.

## Chicago Produce

Chicago, Oct. 22.—(UP)—Eggs: market firm; receipts 6124 cases; extra firsts 45¢-46¢; firsts 44¢; ordinaries 36¢-38¢; seconds 28¢-34¢.  
Butter market easy; receipts 10,447 tubs; extras 44¢; extra firsts 42¢-43¢; firsts 38¢-40¢; seconds 37¢-37½¢; standard 42¢.  
Poultry: market steady; receipts 7 cars; fowls 21¢-25¢; springers 22¢-23¢; leghorns 19¢; ducks 22¢; geese 21¢; roosters 20¢.  
Cheese: Twins 22¢-22½¢; Young Americas 24¢.  
Potatoes on track 370; arrivals 154; shipments 962; market trading slow; market steady; 2.25-2.50; Minnesota and North Dakota Red River Ohio 2.30-2.40; South Dakota Early Ohio 2.25-2.40; Idaho sacked russets 2.85-3.20; South Dakota sacked round whites 2.25-2.35.

## Wall Street

New York, Oct. 22.—(AP)—Prices rebounded sharply on the New York Stock Exchange today from the low levels reached in yesterday's drastic selling. During the first hour of trading nearly two score issues surged up \$3 to \$15 a share above yesterday's final levels. Trading was in large volume, the ticker quotations soon falling about 15 minutes behind actual transactions on the exchange floor, but activity failed to equal the frenzied pace of yesterday.  
The firm resistance which developed in the last half hour of yesterday's 6,000,000 share session, when scores of issues were swept to new lows for the year, was regarded optimistically by Wall Street. Also, a reassuring statement by Charles E. Mitchell, Chairman of the National City Bank just returned from abroad, vastly improved market sentiment.  
"In a market like this," said Mr. Mitchell, "fundamentals are the things to look for, and if you can show me anything wrong with the situation generally, then I would be concerned."  
He added that the decline had probably overrun itself, and represented a healthy reaction from top heavy levels.  
United States Steel common stock changed hands with a block of 10,000 shares at the opening, up \$2.50, and soon extended its gain to \$3.75. The initial sale of General Motors was a block of 11,000 shares, up 50 cents a share. A block of 8,000 shares of Standard of New Jersey was taken \$2 above last night's close. Early gains in some of the high priced issues ran from \$10 to \$15 a share.

LOCOMOTIVE HERE

(Continued from Page 1)

freight runs have roller bearings and all will be equipped with automatic train control.  
The "Pioneer," the first locomotive to run out of Chicago, arrived on the big "Buffalo" coming down the Great Lakes to Chicago on October 10, 1848, just eighty-one years before the arrival of the first Class H engine just put in to service by the Chicago & North Western Railway.

A railway system grown from the little road the Pioneer traveled to the Desplains river, a distance of about ten miles. The road then was called the Galea & Chicago Union Railroad. The Pioneer was put into service October 24, 1848. It has but one pair of driving wheels four and a half feet in diameter, cylinders ten inches in diameter and an eighteen-inch stroke, and weighs ten tons. It was exhibited at the World's Fair in Chicago in 1893, at St. Louis in 1904, and at the Field Museum and now has a permanent place in the concourse of the Chicago & North Western Station in Chicago.

The Pioneer carried its first passenger car on July 4, 1849. "An elegant vehicle built at an expense of \$2,000."

## Local Markets

DIXON MILK PRICE  
From Oct. 21 until further notice the Borden Company will pay \$2.30 per cwt. for milk testing 4 per cent butter fat, direct ratio.

## Local Briefs

James H. LaPorte of Pawpaw, brother of Mrs. W. H. Edwards, visited his sister briefly yesterday at her home on Hennepin avenue.  
Mr. and Mrs. Howard Hall went to Chicago this morning to attend the automobile show.

Mrs. Margaret Steel of Chicago is the guest of Mrs. John Loftus.  
Mr. and Mrs. Joe Dauntler spent Sunday in Davenport, the former's mother returning to Dixon with them.

Dr. and Mrs. W. R. Parker spent Sunday with relatives in Gillman. Enroute home Mrs. Parker stopped in Chicago for a short visit, the doctor returning home Monday evening.

The Misses Mary Bales, Helen Murphy and Gertrude Wilhelm who are in training at the St. Ann's Hospital, Chicago, were in Dixon over the week-end at their respective homes.

Miss Marjory Hills of Franklin Grove was a Dixon shopper yesterday afternoon.

Mr. and Mrs. Phil Rising and Miss Bess Camp of Chicago are in Dixon to attend the funeral of Mrs. Jane Morgan, which was held this afternoon.

The many friends of Mrs. Roy Bridges are pleased to know that the thumb on her right hand which was badly injured about a month ago is slowly healing. Mrs. Bridges had the misfortune to run a long silver under the thumbnail, which necessitated the removing of the nail to release the intruder. After that the injured tissues began to heal and return to normal.

Mrs. Florence Blake went to Chicago Monday to spend a few days.

To Appeal Verdict  
Against Communists

Charlotte, N. C., Oct. 22.—(UP)—Protesting that the conviction of seven union textile workers in the Adolph murder trial was the result of a "class verdict," the defense laid plans today for a vigorous appeal.  
After pronouncing sentence yesterday, Judge M. V. Barnhill allowed 90 days for the appeal. The American Civil Liberties Union, backing the defense, has announced it will carry the case to the United States Supreme Court if necessary.

EDISON BETTER  
TODAY; HE WAS  
NEAR COLLAPSE

(Continued from page 1)

ness until the inventor was well on the way to recovery.  
President Hoover satisfied himself that Edison was merely weakened from the strain of the celebration in his honor before going to his special train. The President left for Cincinnati at midnight.

The banquet last night at which Edison and the President spoke was the climax of the day's celebration at the dedication of the New Edison Institute of Technology, established by Henry Ford to aid the youth of the land in scientific research.

President and Mrs. Hoover, Mr. and Mrs. Ford and Mr. and Mrs. Edison went from the banquet table to the reconstructed Menlo Park laboratory before the addresses were given.

## Re-enact Discovery

There Edison and Francis Jehl, the only man besides the great inventor now living who witnessed the original experiment fifty years ago—on Oct. 21, 1879—prepared elaborate equipment for the event that took on the gravity of a ritual in the minds of the spectators.

"Light 'er up, Francis," Edison shouted, his voice choked with excitement.

"I want you to do it," answered Jehl, assisting the great inventor from his chair.

Edison arose, aided by Jehl and his son, and took off his derby hat. Then he lifted the thin copper wire from the battery plate.

At the same time Jehl sealed the vacuum bulb with a torch and placed it in the socket. As if uncertain, Edison set the wire to the lamp stub.

There was a weak glow, as if symbolic of that conquest of darkness a half century ago.  
Edison lingered in the old laboratory despite the fact it was minutes past the time set for the return of the party to the banquet hall. He seemed eager to explain to the President the memories that had come thronging into his mind with the enactment of the scene.

Radio Most Ethical  
of All Communication

Chicago, Oct. 22.—(UP)—Dr. Walter Dill Scott, president of Northwestern University, contends that of the four methods of formal communication—the stage, the printed page, the screen and the radio—the latter alone maintains a high moral standard.

"From the ethical standpoint, the stage is at the bottom and the radio at the top of the list of methods of communication," Scott told a large audience at the annual radio show here.

Aurora Man Winner  
in Reliability Tour

Detroit, Mich., Oct. 22.—(UP)—John Livingston, of Aurora, Ill., was unofficially announced the winner of the 5017 mile reliability air tour which ended here at the starting point yesterday afternoon. Twenty-five of the 29 original entries completed the tour.

Livingston, piloting an open Waco biplane, was adjudged the winner on the basis of speed, reliability, carrying capacity, and general efficiency.

Prizes totaling \$20,000 are to be given the winners.  
The tour circled the eastern half of the United States. The fliers left Chicago yesterday morning and stopped at Kalamazoo, Mich., before making the final hop here.

## PAID \$1,000 FINE

Tampa, Oct. 22.—(AP)—Walter Gramm, Chicago codd dealer, arrested on a liquor law violation charge in Key West early last May, after he had assumed the responsibility for liquor found in trunks brought into this country from Cuba by Congressman M. Alfred Michelson of Illinois, pleaded guilty in federal court here this morning and was fined \$1,000 and costs.

CONFESSES TALE  
OF JEWEL THEFT  
WAS FOR FRAUD

Admits Conspiracy to Beat Insurance Co. and Pay Debts

Chicago, Oct. 22.—(AP)—The hold-up last February in which Mrs. Edwin C. Price reported the loss of \$18,000 in furs and jewels, had resulted today in her arrest and in the arrest of four men she named as having conspired with her to defraud an insurance company.

Mrs. Price, 38-year-old wife of an elderly millionaire manufacturer, confessed to State's Attorneys last night that the holdup was a sham, they said. She resorted to it, she said, to conceal a gambling debt from her husband.

The plot was conceived, she stated, by Morris A. Barnett, to whom she confessed her gambling debt dilemma. The loot was disposed of, the State's Attorney was told, by Max Krakow, a manufacturing jeweler. The actual "robbers" Mrs. Price said, were Jack Baum and Ben Levin.

Mrs. Price said that Barnett suggested that she insure her jewels and furs for the sum required to meet her debts, and that he would arrange to have her "robbed" and also would arrange disposal of the loot. The arrangement was not only to collect the insurance but also to share in what ever money was obtained from sale of the jewels and furs.

Jewels Worth \$57,500  
Are Reported Stolen

Chicago, Oct. 22.—(AP)—The disappearance of jewels valued at \$57,500 was under investigation today.

A \$17,500 pearl necklace belonging to Mrs. Edward L. Ryerson of Lake Forest disappeared from a delivery truck in which it was being taken to Mrs. Ryerson from a loop jewelry store where it had been reposed. The necklace consisted of 305 pearls, with a diamond clasp and platinum setting.

Louis N. Rose, a jewelry salesman, reported the loss of jewels valued at \$40,000. They were taken from him, he said, by two men as he was riding in a street car yesterday.

The robbers pressed guns against him and compelled him to hand over the sample cases in which the jewels were kept, he said.

Club Expelled Men  
Who Served Liquor

Chicago, Oct. 22.—(AP)—The Herald and Examiner said today that the Kildeer Country Club had expelled three of its members for violating the club's own prohibition regulations, and that about ten others had been placed on probation.

Names of the members involved were not disclosed.  
The serving of liquor by several members at a party for friends three weeks ago was the basis of the action, the newspaper said.

HOOVER SPEAKS  
AT DEDICATION  
OF MONUMENT

Cincinnati Celebrates the Completion of Nine-Foot River Channel

Cincinnati, Ohio, Oct. 22.—(AP)—President Hoover in dedicating a monument in Eden Park here today commemorating the reopening of an improved Ohio river said:

"My fellow countrymen and women—

"It is a great pleasure to me to share in the dedication of this monument glorifying for all time the completion of a nine-foot channel for the full length of the Ohio river. The engineering mind, about which I see so much in the newspapers here does come to the surface and luxuriates in appreciation of a great engineering job well done. This new instrument of commerce from which untold blessings will come years after year, is an enduring monument to the vision, courage and persistence of those men of my own profession whose lives are spent in devising means to increase the comfort and convenience of the world.

"But men of every mould have wrought with equal bravery in this transformation of the wild beauty of the Ohio river into the not less beautiful but more tractable stream of today. The engineers found the practicable means, but many others contributed to the vision, courage and persistence needed to this accomplishment. Statesmen, river men may share the glory. The elders present may well regret the absence of such stalwart figures as Col. William H. Merrill and Captain William B. Rodgers, whose ingenuity and dauntless faith bore so large a part in this achievement.

## Missed Sen. Burton

"I personally feel deeply the absence of Senator Theodore Burton, at whose bedside in Washington I have recently stood. His work as chairman of the historic Inland Waterways Commission, appointed by President Roosevelt in 1907, gave the foundation upon which this great development has been created. The report of that commission in 1908 has been the Bible of waterways improvement. Its first result was the act of 1910, with which began the present project, now brought to successful conclusion. It reflected not only the clarity of mind with which the Senator has endowed public issues for a generation but also the broad humanity of his spirit, that dwelt with special concern upon the problems of equity involved and upon the welfare of the whole body of men and women of the country for whose benefit the program was primarily undertaken.

## Praised Longworth

"Of Speaker Longworth, who fortunately is present, it would be recalled that he was one of the founders of the Ohio Valley Improvement Association and has both privately and as an officer of the government worked indefatigably in the cause of this development for more than a quarter of a century. He and his association deserve high remembrance in the records of this achievement.

"But the whole Ohio valley and the nation as well should be congratulated upon this occasion. A new agency of service now begins its quiet labors for mankind. The tow path that led one Ohio boy to the White House has been modernized. But opportunity has been expanded by the abandonment of the tow path for the engine. It is the glory of our scientific age that its sooty processes in the end bring results that make childhood stronger and happier, and give to man-

Reserve Bank Goes  
To Aid of Urbana

Urbana, Ill., Oct. 22.—(AP)—For the second time in less than a week first by airplane, then by armored truck—the Chicago Federal Reserve Bank has rushed aid to threatened downstate banks.

Half a million dollars in cash arrived here yesterday to stem runs on Champaign and Urbana banks, following the closing by State Auditor Nelson of the Urbana Banking Company. The dash from Chicago was made by armored truck, manned by eight guards. The relief funds were started from Chicago when Federal Reserve officials learned that nervous depositors had started withdrawals from the various banks after word had spread of the closing of the Urbana Banking Company.

Last week \$250,000 was rushed by airplane from Chicago to the Farmers' National Bank at Taylorville, after the other three banks there had closed.

The Urbana Banking Company's troubles were attributed to frozen assets of between \$200,000 and \$350,000. Its deposits are \$1,200,000. State Auditors today were scanning the company's books. They did not expect to have their work finished for two or three days.

Liquor, Loesch blamed for only a minor part of crime. "Liquor, vice and gambling always have been linked in crime, even before prohibition," he said. "Liquor plays a major part only in 'syndicated' crime—gangs and beer wars and extortion gangs."

Loesch blamed the "archaic character and technicalities" of our laws for lax enforcement. Fewer laws would mean better enforcement, he said.

Another reform of judicial procedure urged by Loesch, is the allowing of a three-fourths verdict instead of the present unanimous verdict required. One or two jurors are causing too many mistrials and a consequent tremendous expense to the state, he said.

He urged that police be forbidden to give suspected criminals the so-called "third degree." It results, he said, in too many acquittals. Criminals, after confessing, come into court and claim they were tortured and thus win undesired acquittal.

## Simple Way to Stop Fits!

Brooklyn, N. Y.—It has been reported that wonderful results have been accomplished in Epilepsy Colonies with a new remedy. The most stubborn cases of fits have been stopped through this simple, harmless, non-habit forming treatment. Any reader who sends their name to Phenoleptol Company, Dept. 191, Box 71, St. Johns Pl. Station, Brooklyn, N. Y., will receive a FREE booklet explaining this new guaranteed treatment. Write for it today, mentioning this paper.—Adv.

### MENU for the FAMILY

**WHEN GOBLINS CALL AND  
WITCHES PLAY**  
Menu  
Goblin Sandwiches Sweet Pickles  
Pumpkin Cakes Coffee  
Salted Nuts Apples

**Goblin Sandwiches, Serving 12**  
24 rounds of nut bread  
1/2 cup soft butter  
1/2 cup cream cheese  
2 tablespoons salad dressing.  
1/4 teaspoon salt  
4 tablespoons chopped pimentos.  
Arrange the nut bread slices in  
pairs and spread with the rest of  
the ingredients. Press together sand-  
wich fashion. Wrap in white tissue  
papers, fringing the ends. Stick  
"Goblin Sticks" on each sandwich  
and serve in a black kettle, the  
handle of which is tied with a red  
crepe paper bow.  
If desired the kettle can be hung  
on broomsticks placed near the fire-  
place.

**Pumpkin Cakes**  
1/2 cup fat  
1/2 cup sugar  
1/2 cup milk  
1 teaspoon vanilla  
1 teaspoon orange extract.  
1/2 teaspoon lemon extract.  
1/2 teaspoon salt  
2 1/2 cups pastry flour  
2 teaspoons baking powder.  
3 egg whites, beaten.  
Cream the fat and sugar. Add the  
milk extracts, salt, flour and baking  
powder. Beat for 2 minutes. Fold  
in the egg whites and half fill greas-  
ed muffin pans. Bake for 15 min-  
utes in a moderate oven. Frost the  
cakes.

**Pumpkin Frosting**  
4 tablespoons butter.  
2 egg yolks  
1/2 teaspoon salt  
1/2 teaspoon lemon extract.  
4 tablespoons orange juice.  
2 cups sifted confectioner's sugar.  
12 one half inch pieces of green  
jelly strings (candy).  
Mix the butter, egg yolks, salt,  
lemon extract, orange juice and  
sugar. Beat until thick and creamy.  
Carefully fold the cakes. When set,  
take the handle of a knife and mark  
grooves resembling those on pump-  
kins. Insert the green candy for  
"stems." Arrange on lace doilies and  
serve on a shallow basket.

**Waxed papers cut out to fit under  
dresser and buffet scarves protect  
the surfaces from spilled liquids,  
powder and perfumes.**

**When baking a cake, if it seems to  
brown too quickly reduce the heat  
and cover the cake with a light  
brown paper. Baking can then con-  
tinue, but the cake will not brown  
any more.**

**When convenient, wash the stove  
when it is still a little warm. The  
cleaning will be effective.**

### W. M. S. of Bethel Church in Meeting

The W. M. S. of Bethel U. E.  
church met at the home of Mrs. Rosa  
Zigler on Thursday for an all day  
meeting with a goodly attendance.  
At the noon hour all enjoyed an  
appetizing picnic dinner.

The meeting was opened by singing  
"Let the Lower Lights Be Burning."  
Miss Carrie Swartz read the Scrip-  
ture Lesson and Mrs. C. E. Hill led in  
prayer.

All were favored with a duet by  
Mrs. Louis Zigler and Miss Minnie  
Zigler, "Some One Hears Our Pray-  
ers."

A very interesting leaflet, "My  
Beckie's Conversion in Foreign Mis-  
sions," was given by Mrs. Eugene  
Marlin.

The topic, "Indians of South  
America," was fully developed by Miss  
Ruth Bowers.

Followed by a reading by Mrs.  
John Nelson, "Time for Service."  
written by Mrs. Josie McLean.

The business meeting was opened  
by prayers by two of the members.  
The Amy Chadwick offering was  
taken which was good sum.

Close meeting with prayer by Mrs.  
Josie McLean and all singing the  
Doxology.

**BIBLE CLASS TO MEET  
THURSDAY AFTERNOON—**

The Women's Bible Class of the M.  
E. Sunday school will meet Thursday  
afternoon at 2:30 at the home of Mrs.  
William Wiener, 718 First street. At-  
tend prepared with quotations for roll  
call.

### FORD HOPKINS LUNCHEON SPECIAL

**FOR WEDNESDAY**  
Roast Veal, Dressing  
Mashed Potatoes and  
Wax Beans  
30c  
**EVENING DINNER**  
Breaded Pork Chops, Cream-  
ed Potatoes, Buttered Car-  
rots—30c.

### W. C. T. U. Meeting Held on Friday

The regular monthly meeting of  
the W. C. T. U. was held Friday af-  
ternoon at 2:30 o'clock with Mrs. Ed-  
ward Dawson and mother Mrs. Will  
Thompson as hostesses at their home  
607 North Jefferson Avenue.

The president, Miss Kate Plant,  
presided and opened with prayer.  
Salute to the flag was given, follow-  
ed by a song, "Oh Master Let Me  
Walk With Thee," with Miss Callie  
B. Morgan as pianist.

The secretary, Mrs. Maud Hobbs,  
gave her report which was accepted  
as read. Treasurer, Miss Callie B.  
Morgan, gave her report which was  
approved as read.

A card of thanks was read from  
Mrs. Charlotte Morrow of Amboy,  
Superintendent, for help and enter-  
tainment during the County Con-  
vention held October 3rd, in the Meth-  
odist church.

Devotionals were given by Mrs.  
Belle Morris, reading Psalm 145,  
followed by prayers from Mrs.  
Thompson, and Mrs. Alice Missman,  
and all repeating the Lord's Prayer.

A letter was read by Mrs. Hobbs  
from George B. Safford, State Super-  
intendent of the Anti-Saloon League,  
asking for a contribution and sup-  
port for educational purposes for  
prohibition.

Mrs. Alice Missman gave a very  
interesting article from the "Union  
Signal" in regard to the reserve  
fund, for future work for the W. C.  
T. U.

Echoes from the Convention were  
given by Miss Plant and several  
others.

Mrs. Miriam Maben read a very  
interesting poem "The Great Lead-  
er—Frances Willard," which was  
read at the national convention.

Song, "How Can It Be Done."  
Collection was taken, closing with  
the benediction.

Dainty refreshments were served  
by the hostesses and a social hour  
enjoyed. Twenty three members and  
several visitors enjoyed the pleasing  
program.

### "Fun on the Podunk Limited," Oct. 23rd

On Wednesday evening, Oct. 23rd  
at the St. James church a home  
talent play will be given at 8 o'clock,  
entitled "Fun on the Podunk Lim-  
ited." It is said friends and neigh-  
bors cannot be recognized as they  
take their parts. A good way to  
spend a happy hour. Following is  
the cast of characters:

Farmer Boggs ..... Albert Bothe  
Tom Boggs (little boy) ... Amos Karr  
Grandpa Wiggins ..... Garfield Topper  
Colored Porter ..... Reinhart Priebe  
Newsboy ..... Robert Moore  
Conductor ..... Charles Briemer  
Fat Man ..... Barton Lutz  
Chinaman ..... John Moore  
Irish Woman ..... Edna Topper  
Miss Highstyle ..... Fentle Reed  
Groom (newly married) .....

Bride ..... Clarence Bothe  
Bride ..... Marian Bahen  
Grandma Wiggins ..... Amy Wolfram  
Mrs. Boggs ..... Edith Bothe  
Mary Boggs (little girl) .....

Susie Olson ..... Mandana Green  
Miss Prim (old maid) ..... Alice Bahen  
Susie Olson ..... Edna Topper  
Woman and baby ..... Fentle Reed  
Mrs. Deafy ..... Gertrude Briemer  
Mrs. Herby ..... Lulu Patterson  
Mrs. Stutterly ..... Alice Karr  
Woman Suffragist ..... Ruth Rosbrook  
Marguerite (Suff. daughter) .....

Everybody welcome. Refreshments  
served after the play.

### Series Parties Delightful Affairs

One of the most delightful series of  
parties of the autumn season were en-  
joyed last week by a large number  
of Dixon ladies who attended the  
bridge luncheons which were given on  
Thursday and Friday by Mrs. Louis  
Leydig, Mrs. Charles Harlick and  
Mrs. David Boos, the luncheons be-  
ing held on both days at the Louis  
Leydig home, which was appropri-  
ately and beautifully decorated with  
colorful garden flowers. Elegantly  
appointed three course luncheons  
were served both days from the at-  
tractive small tables. There were  
guests for seven tables on Thursday  
and guests for eight tables on Fri-  
day.

Mrs. Lottie Horton was awarded the  
favor for high honors at bridge on  
Thursday; and Mrs. Lester Street  
was awarded second honors; while

Mrs. D. M. Worsley and Miss Mil-  
dred Leake of Amboy very delight-  
fully entertained with bridge on Fri-  
day evening at the former's home in  
honor of Miss Florence Schroeder,  
whose engagement to John W. Hin-  
richs was recently announced.

The rooms were prettily decorated  
with pink roses.

There were three tables of bridge.  
Mrs. Dwight Mynard won the first  
favor for high honors; the second  
favor being awarded to Mrs. William  
Hull of Chicago. Miss Schroeder was  
presented with a lovely guest prize.

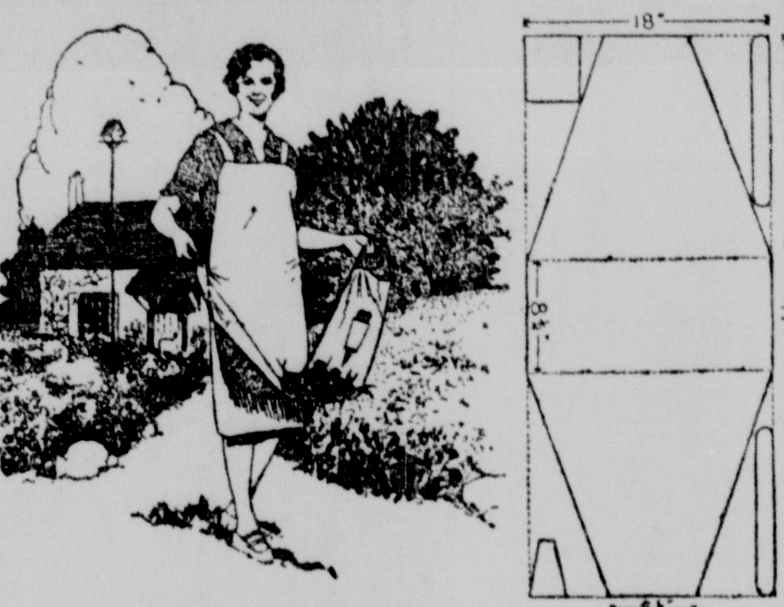

Delicious refreshments were served  
by the hostess.

**PERFUMED SANDWICHES  
NOW COME INTO VOGUE—**

Perfumed sandwiches, bearing the  
scent of real flowers, are the latest  
vogue in afternoon refreshments, ac-  
cording to Janet F. Wing of Farm &  
Firebirds. The dainties were made  
years ago by fashionable hostesses.

### For the Flower Lover

Carrier Made from Flour Bag Very Useful in Weeding  
and for Picking Up Brush.

The woman whose pleasure lies  
in her garden will appreciate the  
handy flower carrier shown here.  
The handles are slipped over the  
left wrist, leaving both hands free  
for picking, and at the same time  
preventing the flowers' wilting from  
the warmth of the hands. It may  
also be used when weeding or in  
picking up brush.

A single osnaburg feed bag and  
an empty flour bag will provide  
the material necessary for two such  
carriers, one for yourself and one  
for your flower-loving neighbor.  
The only cost for each will be for  
the four yards of bias tape to bind  
the edges and a few cents for dye.  
It is not necessary to dye the osna-  
burg, but the flour bag material  
will of course show soil and stain  
much less if dyed a deep green or  
a rich rose color.

The stamping on the bags may

first be removed by soaking them  
overnight in kerosene and then  
washing out in soap and water.  
The pattern for the carrier can  
be easily cut by using the measure-  
ments given here. Cut one from  
osnaburg for the outside, and one  
from the flour bag for lining. Stitch  
the two pieces of material  
together on the dotted lines and  
slip in between them a piece of  
strong cardboard or lightweight  
wood 3"x17". Then bind all the  
way around and put in the handles  
firmly. The narrow pocket is to  
hold the shears while the square  
one is for string, tags and other  
garden accessories.

By using osnaburg for both thick-  
ness and omitting the cardboard  
and pockets, one has an excellent  
sturdy carrier for bringing small  
logs and kindling from the woodpile  
to the fireplace.

Mrs. Ralph Lievan was awarded the  
consolation favor.

On Friday Mrs. Harry Quick was  
awarded the favor for high score;  
Mrs. Lloyd Lewis receiving the favor  
for second high and Mrs. James Pal-  
mer received the consolation favor.

### Men Now Like The Facials Too

St. Paul, Minn.—(UP)—Even as  
woman adopted the hair trim so  
must men accept the "facial," shop  
owners declared at the opening of the  
sixth annual convention of the Mas-  
ter Barbers' Association of America  
here.

"Men may consider the facial ef-  
feminate," said Otto Ewert of Chic-  
ago, president of the association. "Once  
they thought the same of brushing  
the teeth."

Delegates to the convention agreed  
that a new field of exploitation lies  
in popularizing the facial among  
men. Also they discussed ways of  
getting the feminine trade back from  
the barber's greatest competitor—the  
beauty operator.

Barbers who rely entirely on shaves  
and haircuts for their existence, one  
leading delegate said, must be ranked  
with the "village tonsorial artist who  
makes a side line of pulling teeth."

### Party Honored Miss Schroeder

Mrs. D. M. Worsley and Miss Mil-  
dred Leake of Amboy very delight-  
fully entertained with bridge on Fri-  
day evening at the former's home in  
honor of Miss Florence Schroeder,  
whose engagement to John W. Hin-  
richs was recently announced.

The rooms were prettily decorated  
with pink roses.

There were three tables of bridge.  
Mrs. Dwight Mynard won the first  
favor for high honors; the second  
favor being awarded to Mrs. William  
Hull of Chicago. Miss Schroeder was  
presented with a lovely guest prize.

Delicious refreshments were served  
by the hostess.

**PERFUMED SANDWICHES  
NOW COME INTO VOGUE—**

Perfumed sandwiches, bearing the  
scent of real flowers, are the latest  
vogue in afternoon refreshments, ac-  
cording to Janet F. Wing of Farm &  
Firebirds. The dainties were made  
years ago by fashionable hostesses.

noon at the church instead of Thurs-  
day, this week because of the rum-  
mage sale Thursday. All wishing to  
contribute to the rummage sale may  
bring their clothing or articles to  
the church before Thursday. Host-  
esses for the birthday luncheon Wed-  
nesday will be Mesdames W. A. Bos-  
worth, George Alshouse.

### Blanche and Mickey Seek a Separation

Los Angeles, Cal., Oct. 22.—(UP)—  
Blanche Sweet, film actress has ob-  
tained a divorce from Mickey Neelan,  
director.

She charged cruelty which she  
claimed began on their honeymoon  
seven years ago.

"He took me to Tex Guitman's  
night club in New York, then left me  
all evening while he was in an-  
other part of the club with another  
woman," she charged.

On one occasion, she charged,  
Neelan brought a crowd to their  
home in the middle of the night and  
demanded she get up an entertain-  
ment. She claimed he called her  
vile names before guests. A prop-  
erty settlement was made.

### Happy Surprise For Ilean Wolf

Wednesday evening friends num-  
bering almost a hundred gathered at  
the home of Mr. and Mrs. B. J. Wolf  
to help their daughter, Ilean, cele-  
brate her birthday. The affair being  
a complete surprise to the young lady,  
who had spent the early evening at  
the theater. The evening was spent  
in chat, dancing and games and late  
in the evening delicious refreshments  
were served. Miss Ilean was the re-  
cipient of many pretty and useful  
gifts for which she expressed deep  
appreciation.

### WOMEN'S AUXILIARY TO MEET FRIDAY—

The meeting of the Women's  
Auxiliary of St. Luke's church,  
which will be held at the church  
Friday, promises to be one of the  
great interest. Mrs. E. J. Randall  
of Chicago has been invited to at-  
tend and preside over the meeting of  
the Auxiliary, at which she will  
speak, she will be a guest of honor at  
a luncheon sponsored by Miss Caro-  
line Eells, to which all women of the  
church are invited.

### TO ATTEND ILLINOIS-MICHIGAN FOOTBALL GAME—

Edward Worley, accompanied by  
Mr. and Mrs. William Worley and  
sons, William and Richard, and Mich-  
ael Coffey, will drive to Danville  
Thursday to spend the day with Mr.  
and Mrs. Armand Gregoire. Friday  
they will go to Urbana to visit Miss  
Marie Worley, a senior at Illinois  
University, and attend the Illinois-  
Michigan Homecoming game.

### Announced Engage- ment in Joliet

Dixon friends of the young couple  
will be interested in learning that  
Miss Anna Kalovits of Joliet, an-  
nounced her engagement to Steve  
Bubrick, Jr., of Dixon, at an an-  
nouncement party at the home of her  
parents on Sunday, which proved a  
most delightful event.

### P. N. G. CLUB TO MEET THURSDAY AFTERNOON—

The P. N. G. club will meet  
Thursday afternoon in I. O. O. F.  
hall. At 6:30 supper will be served  
and a good attendance is desired.  
The hostesses for the afternoon will  
be Mesdames Kennedy, Sinclair,  
Harding, Covert and Heft.

### WERE GUESTS AT THE LEITH HOME SUNDAY—

Mr. and Mrs. E. T. Leith enter-  
tained at their home in Dixon over  
Sunday Mr. and Mrs. E. Hill Leith,  
Miss Mildred Logeman, and Mr. and  
Mrs. L. W. Hutchinson of Chicago.

### BORCAS SOCIETY TO MEET WEDNESDAY—

The Dorcas ladies of the Congrega-  
tional church will hold their regu-  
lar meeting on Wednesday after-

### NEW YORK-PARIS FASHIONS

NOT every woman in the world can

wear with grace or with ease  
the little cape or bertha which seems  
to have found a permanent place in  
the mode again. And often, even  
if they are becoming, they are not  
practical, especially on a frock that  
one wants to wear under a top coat  
and emerge looking unmussed and  
uncreased. But the Bertha neck-line  
is smart as it can be, so one bright  
designer bethought herself of a  
happy compromise and made the  
frock sketched above. Because white  
and navy blue in combination are  
much liked for early fall wear, she  
used those two in one of the new,  
almost normally waisted straight-  
line frocks. Straight-line, but with  
a subtly worked out flare at the  
front of the skirt. But the upper  
part of the bodice is the important  
thing. The white crepe had been  
applied in most striking fashion  
to the blue and the result is, as one  
can see, the effect of a short over-  
sleeve cape. By way of giving it the  
last fine touch, this designer had the  
amusing notion of outlining the  
white section with a row of blue  
shell buttons, the tone of the dark-  
er silk. The belt, by the way is  
fastened with two more buttons in  
interesting arrangement but of larger  
size.

**YOUR  
CHILDREN**  
by Olive Roberts Barton  
© 1929 by NEA Service Inc.

The first of great necessities for  
the proper growth of children is  
fresh air.

Children who spend a large part  
of their indoors, especially those who  
live in close, overcrowded houses, are  
apt to be pale, listless, dull, and slow  
of growth.

More families each year are using  
apartments. Modern apartments  
are pretty nearly air tight. Modern  
heating systems more often than not  
exclude fresh air. Coolings have a  
tendency to go down instead of up,  
reducing the cubical content, and  
consequently the air bulk, consider-  
ably.

These things are greatly responsi-

ble for the spread of nose, throat,  
and lung diseases, particularly as  
children spend most of their time  
away from home in schools, movies,  
and other indoor places where other  
people are not only using up the  
oxygen and filling the air with car-  
bon dioxide from their own lungs,  
but also where ventilating systems,  
however excellent, still leave much  
to be desired after a crowd of peo-  
ple have been using it for several  
hours.

These fall days, when frost gives a  
nip to the air at night, it is a tempta-  
tion to raise the windows only an  
inch or two for fear Johnny catches  
cold.

### Don't Fear Cloudy Days

Another thing Johnny's mother is  
likely to do is to scan the sky, and  
if she sees nothing but leaden  
clouds, warn her son to hurry home  
from school; he "might catch cold if  
he stays out on such a damp, dreary  
day."

Of course, there is no day like a  
sunny day. But they cannot all be  
sunny days, and one thing should be  
borne firmly in mind: Outside air is  
at all times better than house air.

After school, it would be far bet-  
ter advice for Johnny's mother to  
say "Stay out for an hour son.  
Walk straight take deep breaths,  
and don't sit down on the damp  
ground or on damp stones."

Or let him play on the neighbor-  
hood football team. It's better for  
him to be moving or exercising than  
standing still, particularly if the  
weather is sharp or damp. But in  
some way, somehow, let him get that  
pure air into his lungs.

At night, don't raise the windows  
a few inches. Put them up the  
whole way. Get a screen, as cheap  
as you like, and put it near the bed  
to keep off draughts. On very cold  
nights, take that his head is pro-  
tected by a cap. Of course, the bed-  
clothes must be light and warm.

### Oglesby-Carroll Wedding Monday

Peoria, Ill., Oct. 22.—(UP)—John  
G. Oglesby, former Lieutenant Gov-  
ernor of Illinois and Mrs. Charles  
Van Bergen Carroll, Springfield, were  
married here yesterday. Oglesby is  
the son of Illinois' Civil War Gov-  
ernor.

### SUPPER AT CONGREGATIONAL CHURCH LEE CENTER—

The Ladies Circle of the Congrega-  
tional church, Lee Center, will serve  
supper at the church Wednesday eve-  
ning, Oct. 23rd, commencing at 6 o-  
clock. A program will be given.

### DAUGHTERS UNION VETERANS TO MEET—

The Daughters of the Union Vet-  
erans of the Civil War will hold a  
regular meeting Thursday evening  
in G. A. R. hall. There will be  
balloting on new members. A good  
attendance of officers and members  
is desired.

### MISSIONARY SOCIETY TO FRIDAY AT 2:30—

The Women's Missionary Society of  
the Presbyterian church will meet at  
the home of Mrs. George Dixon, 411  
E. McKinnin street, Friday at 2:30.  
It is hoped that there will be a large  
attendance.

### SHEPHERD'S CLASS TO MEET—

The Shepherd's Class of the Grace  
Evangelical church will meet at the  
parsonage Friday evening. A good  
attendance desired.

### W. C. O. F. TO MEET THURSDAY EVENING—

The W. C. O. F. will meet Thurs-  
day evening at the K. C. club house.  
A good attendance is desired.

Repave and Widen Streets in Business District.  
Build a Municipal Bathing Pool.  
Advertise the Beautiful Rock River Valley.  
Develop Dixon as an Industrial and Trading Center.

## FAITH AND CYNICISM.

Ernest Boyd writes a spirited defense of cynicism in a recent issue of Harper's Magazine.

The cynic, he says, is the man who, by sad experience, has been disillusioned about human nature. He does not expect too much; indeed, he usually expects the worst, since he knows that is what mankind so often produces. Thus he is seldom or never disappointed. Life does not continually jar him.

This, believes Mr. Boyd, is an enviable state. The cynic, as he sees him, is not a bitter, discouraged person; he is one whose enjoyment of life is all the greater because he is too wise to look for more than he will get.

Probably this is all very true. Yet the world cannot do with too many cynics. Especially it cannot do with them in the high places. Its great need is for people who dare to expect the best, not the worst; people who can retain a deep faith in human nature in spite of Chicago gang wars, Philadelphia primaries, New York night clubs and Hollywood publicity seekers.

For faith, after all, can move mountains. It is a lie that we cannot lift ourselves by our own bootstraps. We have been doing it for many centuries, and we must continue to do it. Cynicism is a fine armor for the man who does not dare face the unpleasant shocks of life, but it is next to useless for the big jobs of the world. Idealism, preferably of the impractical, visionary kind, is what is needed.

If you do not expect too much of human nature you will never ask too much of it. And it is the great askers—the men and women who demand that their fellows transcend their limitations of selfishness, blindness and timidity—that push the world forward.

Cynicism would have helped Washington endure his squabbles with the Continental congress, the grasping Tory traders and the self-seeking army officers with much more comfort. It would have made Valley Forge more bearable. But it would not have won the Revolution. That took visionary idealism that could persist in spite of plain common sense.

Likewise a cynical Lincoln would have been happier than the gaunt idealist who occupied the White House from 1861 to 1865; happier, and less successful. For the world somehow does not respond to cynicism. It demands ideals, even if it flouts them. Seeing as through a glass, darkly, it nevertheless can recognize that which is higher than itself; and, in the fullness of time, it will follow it.

This is especially true in a democracy, like ours. To the cynic the problems of democracy are insoluble. They call for an impossible improvement in human nature. Yet they will be solved, in time; solved because there will be, from time to time, men who dare appeal to their fellows to do the impossible.

## NATURE'S WAY.

Despite the fact that this is an age of mechanical inventions, the age-old forces of nature can still be enlisted to advantage in doing the work of the world.

The Biological Survey and the Bureau of Plant Industry of the U. S. Department of Agriculture have been experimenting on new methods of helping farmers rid their orchards of destructive grubs and insects; and one of the best ways has been found to be the enlisting of an army of insect-eating birds.

Careful researches have shown the investigators what birds are an orchard's best protectors. Now they are studying methods of breeding that will enable a farmer to maintain these birds on his land.

Odd, isn't it? We use machinery for more varieties of work every year; but nature's methods of keeping the insect population in check still seems to be the most effective.

Wait! The football season hasn't ended, and there's still a chance for one of the experts to forecast a game correctly.

A plumber should not be blamed for having to go back for his tools, says a news item, because there are 800 tools to pick from. The first intimation we've had that there are so many different styles of monkey wrenches in the world.

The Department of Agriculture announces that Sphagnum moss is the best diet for worms. Very useful information, if you have that kind of neighbors.

A British manufacturer says that his firm would have to go out of business except for the demand from America for handcuffs. Handcuffs across the sea.

A pillow that cures snoring is said to have been invented recently. It ought to meet with a ready sale at grand opera festivals.

(READ THE STORY, THEN COLOR THE PICTURE)

The corn the Weenoes brought looked good. "Let's cook it, now, just as we should," said Scouty. "We will build a fire. Oh, gee, won't this be great. I love good fresh corn fixed just right. I'll put a heap right out of sight. It seems I've grown so hungry that it's hard for me to wait."

The others promptly rushed around until a pile of wood was found. They fixed a little bonfire and then lit it with a spark. The corn was fixed on sticks above as Clowny said, "I surely love to help at fixing tasty food. This corn feast is a lark."

The blaze soon simmered very hot and everyone showed quite a lot of interest as the corn began to cook and get real brown. Wee Coppy stood beside the blaze and said, "I'll be the one to raise the corn off when it's done. Yes, sir, I'll gladly take it down."

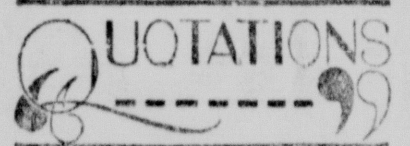

At last the corn was cooked to

taste. "Come on, there is no time to waste," said Carpy. "Let's all sit around and eat and eat and eat. We'll let kind Coppy serve us. He is just as clever as can be. I hope I eat so much that I can't stand upon my feet."

The meal went on. They all had fun because the corn was nicely done. The big ears disappeared real fast as each one got his fill. Just as they planned to rest a spell, the others all heard Clowny yell, "Oh look! A scarecrow's coming!" This gave all the bunch a thrill.

The scarecrow looked real mad and so wee Clowny said, "Come on let's go and seek a bit of shelter. This is no safe place to stand." They all ran right behind some trees, but one Weenoe fell to his knees. The scarecrow pounced upon him and then grabbed him in his hand.

When Vicks VapoRub was introduced, mothers especially were quick to appreciate it, because it is just rubbed on and cannot upset children's delicate stomachs, as "dosing" is so apt to do. Of course it is equally good for adults.

Today, the whole trend of medical practice is away from needless "dosing," and the demand for Vicks has grown until it is necessary to again raise the figures in the famous slogan. There are now "Over 26 Million Jars Used Yearly."

## FIRST STEAMER IN WEST

One hundred and eighteen years ago today, on Oct. 22, 1811, the first steamboat on western waters, the "New Orleans," left Pittsburgh for New Orleans, via the Ohio and Mississippi rivers.

The next few years saw an amazing increase in traffic on the inland waterways. Until 1825 when the Erie canal was opened, the Ohio was the great commercial and industrial link between the east and the west.

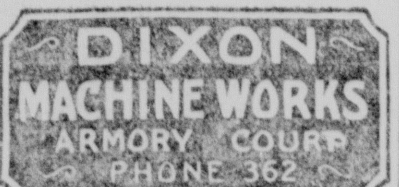

Until the closing years of the 19th century, the famous old river packers piled up and down the Ohio's winding 1000 mile trail from Pittsburgh to Cairo, and beyond.

Then, as suddenly as it had started, river travel dropped to a minimum, wharves rotted, scores of packets were thrown into the discard, and the inland waterway seemed doomed as a main artery of commerce.

But government engineers were convinced of its practicability as an important link in the nation's transportation system, and the Ohio

Pulling stiff grades on high without punishing the engine is a matter of having the motor in A-1 condition. Our skilled mechanics, excellent shop facilities will make the motor do its best.

river federal canalization project was started.

The gigantic engineering work, costing \$18,000,000, was completed this fall. By means of 50 movable dams and locks, a nine-foot water stage is maintained throughout the length of the river and this gateway to commerce has been reopened.

## Daily Health Talk

By T. R. Ponton, M. D., Chicago, Ill., Medical Adviser, Gorgas Memorial

(The following is one of a series of articles prepared under the direction of the Gorgas Memorial as part of its Better Health and Longer Life program. President Coolidge is the honorary president of the Memorial, which has been organized and endowed by prominent doctors and laymen throughout the country to perpetuate the work of the late Major-General in preventing unnecessary illness. Headquarters of the Gorgas Memorial are at 400 North Michigan Ave., Chicago.)

George Washington—Born 1732—Died 1799.

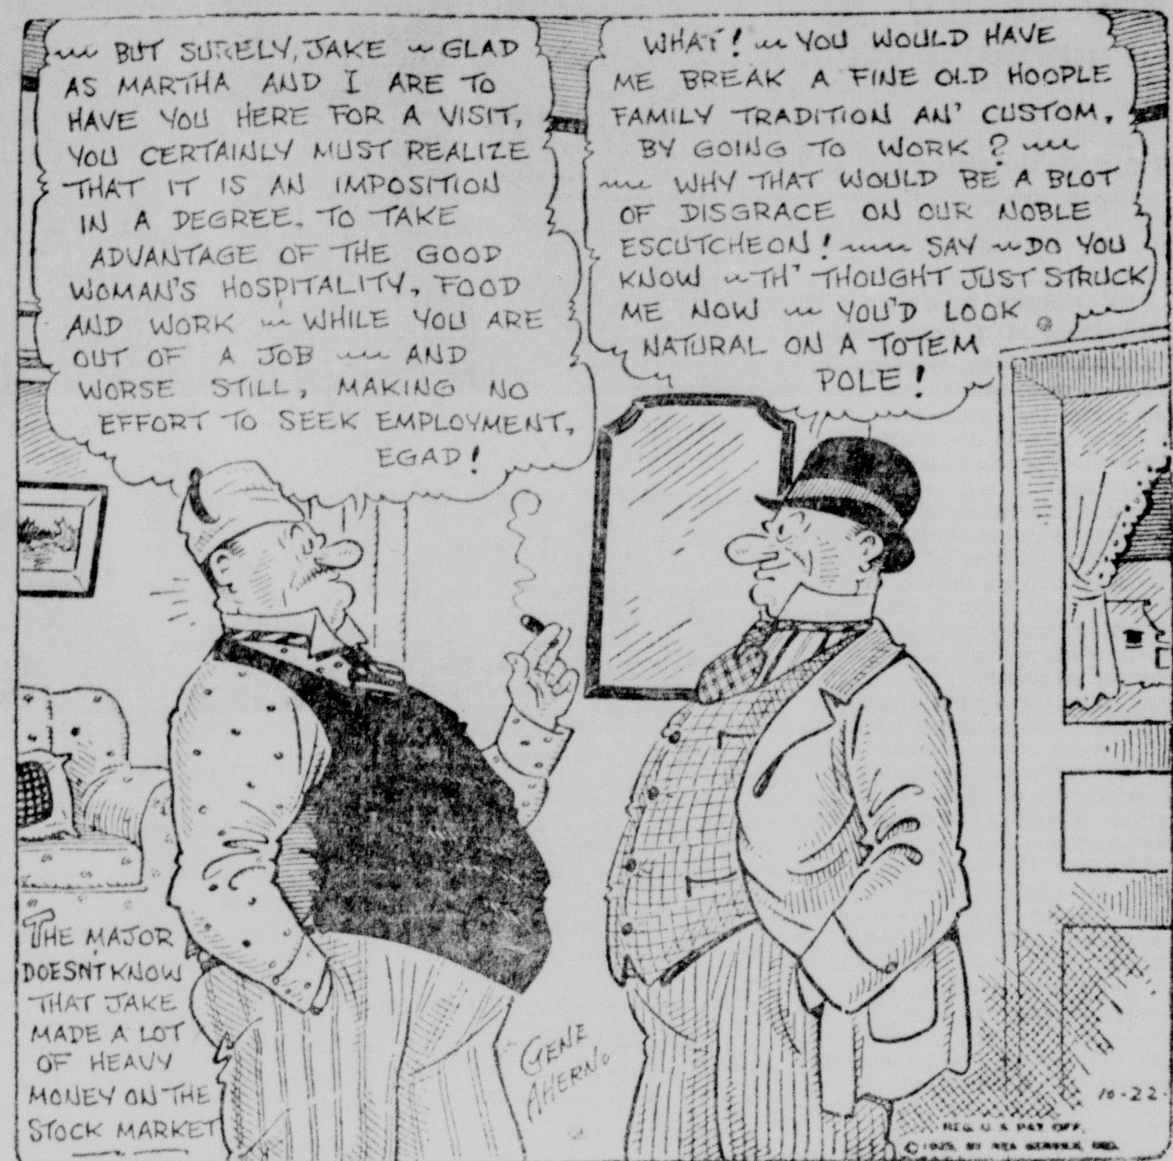

Some recent newspaper comment on the death of this, the first and one of the greatest presidents of the United States, sets one thinking of the changes in medical practice in the past hundred years.

In the time of Washington the practitioner relied entirely on his powers of observation and his clinical experience in making a diagnosis of disease. It is, and always has been, a recognized fact that no person, no matter how well trained, or how experienced, can distinguish with certainty between an ordinary sore throat, a tonsillitis, or a diphtheria, yet the medical practitioner of 100 years ago had no other means of making the distinction; hence the death rate from diphtheria was very high.

What a change has come about with more modern methods! At the present time any medical practitioner as soon as he sees a patient with a sore throat, passes a swab of cotton over the diseased portion of the throat, sends this to a laboratory for proper growth and within 24 hours knows positively whether the patient has the once dreaded diphtheria, or an ordinary sore throat.

Treatment too has changed. At the time of Washington various applications were made to the throat itself, some of which did good, no doubt, some of which only irritated it, and so did harm. The advances in our knowledge of disease have given us a sure and harmless remedy in the form of antitoxin. At the present time, as soon as a throat that resembles diphtheria is seen, antitoxin is given—even without waiting for a laboratory report. If the patient has an ordinary sore throat, the antitoxin does good; if it is proved that the patient has diphtheria the antitoxin, if given in

## OUR BOARDING HOUSE

large enough doses, and early enough in the disease, is a positive cure.

Prevention too has made equal advances. By following modern methods persons can be so treated that they are made safe from the dangers of contagion. By the toxin antitoxin treatment. But if one who is not so immunized is known to have been exposed to the disease, the early administration of a comparatively small dose of antitoxin will almost invariably prevent its development. Both of these methods of prevention have been proven to be absolutely harmless.

Thus, since the days of George Washington, owing to modern methods of prevention, diagnosis, and treatment, diphtheria has come to be regarded not as one of the dreaded scourges of the human race, but as one of the least of the ills to which flesh is heir.

## Disorders Followed Berlin Demonstration

Berlin, Oct. 21.—(AP)—Attempts of German Nationalists yesterday to stage street demonstrations protesting adoption of the Young reparations plan brought about a series of clashes with police in various parts of the city.

Police, who had forbidden the demonstrations, arrested more than 100. Minor injuries were incurred when the constabulary used clubs to disperse the manifestants.

The biggest clash of the day occurred in North Berlin when 300 members of the "Stahlhelm, or 'Steel Helmets' organization, after a meeting in "Lustgarten," attempted to march toward a synagogue, not heeding the order to disperse. Mounted police used their clubs freely.

## UNITED STATES AND MEXICO TO DIVIDE WATERS

Parley at Washington will  
Study Three Great  
Rivers

BY JOSEPH H. BAIRD

United Press Staff Correspondent  
Washington.—(UP)—Commissioners of the United States and Mexico seated themselves around a council table here today to divide the waters of three great international rivers. These highly-prized streams—the Rio Grande, Tia Juana and Colorado—represent food and clothing as well as drink for millions of Americans and Mexicans living on the irrigated land along their borders. Division of these waters has posed as international problem whose solution was sought unsuccessfully by commissioners at a three-week session in Mexico City last August.

Today these commissioners settled down to consider their labors. If they agree on a compact, it will be submitted to the State Departments of each nation to be translated into a treaty.

### Six Commissioners.

Three members, all engineers, represent each nation. Their task is to effect an equitable distribution of water for irrigation and to agree on measures for flood control in the lower delta of the Colorado. Although this danger will be mitigated by Boulder Dam, engineers believe they also are convinced a Mexican outlet channel must be dredged.

The Tia Juana river has tributaries on both sides the international boundary line. It begins south of this line and empties into the Pacific Ocean two miles north of it. During the Spanish occupation of Mexico it was valuable chiefly as a watering place for cattle.

Development of irrigation projects near San Diego, Cal., as well as on the Mexican side of the river, have made its waters valuable. The City of San Diego looks to the stream to re-enforce its water supply. Resort developments near Tia Juana, Mexico, likewise, will depend on the stream for water.

The Mexican government, it is understood, is spending \$14,000,000 on a dam and reservoir to store water from the Tia Juana. Erection of a reservoir on the international boundary line to conserve this nation's water surplus is contemplated by the United States.

Investment of \$20,000,000 in irrigation projects along the Rio Grande has made this river of great importance to the United States, according to the Interior Department. On the American side of the river 560,000 acres are irrigated and 291,000 on the Mexican side. American water diversion from the Rio Grande was estimated last year at 856,000 acre feet.

Faced with a loss of 4,000,000 acre feet of Rio Grande water which ran to waste last year, Government engineers believe two or more large storage dams should be built in the main channel of the stream.

### Living for 2,000,000.

The Interior Department estimates conservation of this wasted water will irrigate 1,000,000 acres of land on either side of the river to provide a living for 2,000,000 persons.

One of the problems confronting the commission is to devise plans for building these dams as an international enterprise. A plan, if agreed on, probably will be incorporated in a treaty.

The effective drainage area of the Rio Grande is 177,500 square miles, of which 54.8 per cent lies in the United States and 45.2 in Mexico. The total river yield for irrigation is estimated at 7,757,000 acre-feet. Forty-eight per cent of this comes from the United States and 52 per cent from Mexico.

The problem raised by the Colorado River has as one of its angles the pending construction of Boulder Dam, which will change conditions on the lower river in Mexico.

Mexico's claims to Colorado water are relatively small as 242,000 square miles of the river's 244,000 square-mile watershed lies in the United States. Mexico, according to the Interior Department, contributes nothing to the stream's waters, but approximately 100 miles of the river channel are in the southern republic.

### Flood Control Problem

This lower channel flows through a delta built up through the ages by silt deposits. Before irrigation began, the river in flood wandered all over the delta, without any definite channel.

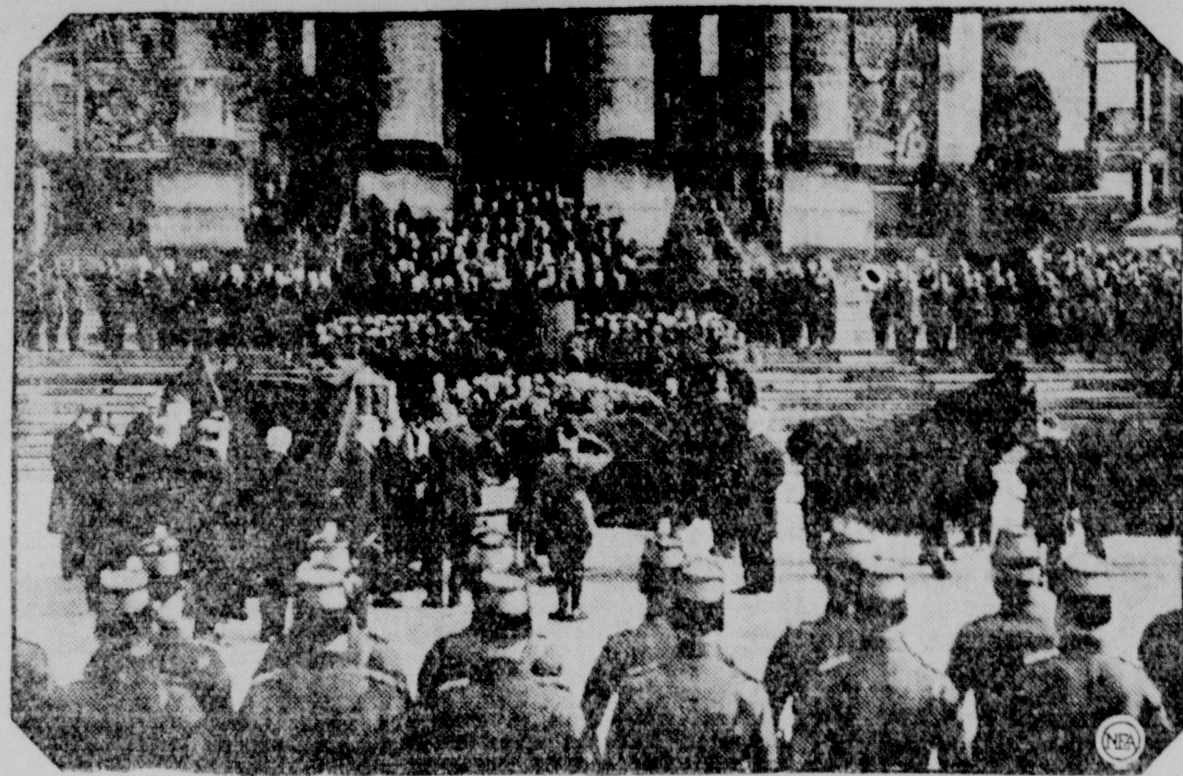

Imperial valley irrigation projects necessitated keeping the river within bounds. Levees for this purpose were erected. A tendency of the river to raise its channel by silt accumulation has required constant heightening of the levees. Engineers decided some more satisfactory means of controlling the Colorado must be found. That is one major reason for building Boulder Dam. This project will create a reservoir sufficient to store one entire year's flow, according to the Interior Department.

Control of floods until the time when Boulder Dam is completed is one of the problems the commission will try to solve. It will discuss also the construction of an outlet channel to the Gulf for whatever surplus waters flow down

**PIMPLES** If you want to get rid of ugly disgusting pimples in a hurry, try the harmless new remedy, in convenient tablet form, called Kitagran. It gets rid of the impurities in the blood so quickly that the skin clears up right away—often within 24 hours. You can get Kitagran from the druggist named below who will return your money if you are not thoroughly satisfied.

Rowland's Pharmacy

## Funeral of German's "Warrior for Peace"

Political differences were forgotten and statesmen mingled with commoners at the funeral of Germany's "great warrior for peace"—Foreign Minister Gustav Stresemann. Pictured above is the impressive scene as the cortege bearing the famous diplomat's body left the flower-banked front of the Reichstag in Berlin on its way to the cemetery. Some of the nation's most distinguished men, including President von Hindenburg, followed the black-draped hearse, while uniformed students, helmeted policemen and republican troops stood solemnly at attention. Stresemann died shortly after taking part in war debt negotiations at The Hague, Holland.

### ROCHELLE NEWS

ROCHELLE—Fred W. Simonds of Chicago, announces the marriage of his daughter, Eleanor, to Roderick Dhu Hathaway, a son of Mrs. Elizabeth Hathaway of Rochelle, on Saturday, October 19th, at Chicago.

Mr. and Mrs. Hathaway will be at home after November first at 1155 North Eighth Street, Colton, California, where Mr. Hathaway is a practicing attorney.

The Home Economics Class of the township high school will hold a party after school, Thursday evening. The class will stay and have supper and enjoy a social time.

Mr. and Mrs. Fred W. Craft and Mr. and Mrs. John E. Countryman motored to Davenport, Iowa to visit Mrs. Maude Wettstein.

South Grove Grange will hold their carnival on Friday and Saturday, October 25 and 26. A chicken supper will be served on Friday night and the following program will be given:

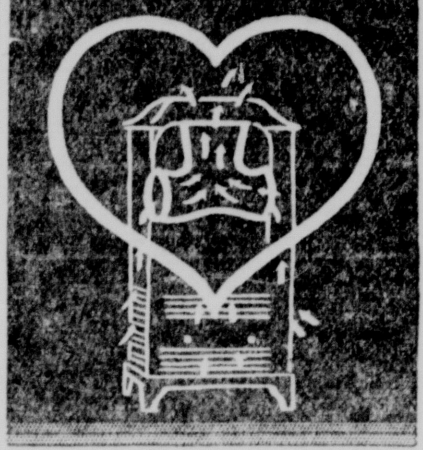

Musical Selections... Harmony Girls Reading... Lois Jenkins Play... "Hist, She's a Man Musical Sketch... Harmonica Band Vocal Solo... Martha Anderson Saturday evening a mixed program will be given between 7:45 and 9:00 including the Kinky Koon Orchestra and the Chorus Girls. There will be dancing from 9 o'clock on.

A scramble dinner will be given at the Flag Center church Thursday, October 24. There will be a program in the afternoon.

The following entertainment will be given by the pupils of Creston grade school, Wednesday, Oct. 23, at 7:30 P. M. at the town hall.

Music... Milan Symphony Orch. Folk Dances... Primary Grades a—The Danish Cobblers b—Klappdansk

## THE "HEAT- HEART" of Heatrola

**T**HE biggest reason for Heatrola's nation-wide success is found inside its beautiful cabinet. It is the Intensi-Fire Air Duct, a unique device built right in the path of the flames to block heat that ordinarily escapes up the chimney. It is the "heart" of Heatrola's warm-air circulating system—it means whole-house warmth at the fuel cost of a single stove.

You'll find the Intensi-Fire Air Duct only in the genuine Estate Heatrola. And you'll find the Heatrola only at this store. See the complete line now on display—including the striking new 6-D. There's a size to suit every requirement.

The Boy's Store

The honor roll for the first period ending October 11th as announced by L. R. Lissack, Supt. of the graded public school is:

Central School.  
2nd Grade—Jane Cleveland, James Harris, Dorothy Ihnen, Mary Meenan, Margaret Shumaker, Betty Jane Stafford.  
3rd Grade—Margaret Ruth Baker, Barbara Bain, John Campbell, Carl Gulo, James Drain, Hazel Owen, Irma Lee Zimmerman.  
4th Grade—Eleanor Campbell, Harold Hohm, Virginia Kepner, Carolyn Klewin, Heeter McDaniels, Louise Wood.  
5th Grade—Jean McEachern, Mary May, Charles Bain, Ann Tilton, Ernest Felsted, Noama Dobbs.  
6th Grade—Evelyn Johnson, Betty Lu Allen, Harold Hixon, Betty Hoon, Ruth Larson, Jessie Satterly.  
7th Grade—Charles Soar, James Campbell, Jane Drain, Ruth Harris, Marvin Heath, Frances Pearson, Frances Phelps, John Whitson, Mary June Zimmerman.  
8th Grade—Elaine Ienfang, James Hay, Dale Heath, Allan McEachern, Lincoln School.  
2nd Grade—John Baker, Elmer Huntley, Gerald Jacobs, Eugene Nevig.  
3rd Grade—Evelyn Cronk, Robert Degryse, Jo Lu Drummond, Levee Hanson, Grace Hay, Charlotte Palmer, Lola Walters.

4th Grade—Betty Nesvig, Bene Welter, Alice Lee Wright.  
5th Grade—Virginia Evans, Doreen Hustler, Mary Quest, Jane Young, Pauline Trego.  
6th Grade—Mildred Ertmoed, Bernice Hanson, Norman Stangley, Leonard Druker.

A regular meeting of Rochelle Post No. 403, American Legion, will be held in the Legion Hall this (Tuesday) evening, October 22nd at 8:00 P. M. The program includes business, eats and cards.

The annual meeting of the Rock River Golf Club will be held Friday evening, October 25, 1929. Dinner will be served at 6:30.

### FLIERS IN SHANGHAI

Shanghai, China, Oct. 21.—(AP)—The French fliers Deudonne Coste and Maurice Bellonte arrived here today from Mukden, Manchuria.

The aviators went to Mukden after establishing a new long distance record, flying from Le Bourget across Europe and Siberia to Manchuria.

## Beauties—From Eve to the Present

Beauty's progress through the ages was demonstrated at a Los Angeles beauty show when pretty models depicted the evolution of feminine dress from the time of Eve. Above, left to right, are Mara Shannon as Eve; Franchon Marchant, the Stone Age Girl; Helen Crosby, the Grecian Girl; Flora Speth, the Colonial Girl; Dorice Gordon, the Girl of 1860, and Jane Clark, the Girl of the "Gay Nineties." At right is Nadine Doree, who was acclaimed the most beautiful model at the show. She wears the prize awarded her, an ermine cloak.

### Boulder Dam Power

Washington, Oct. 21.—(UP)—Secretary of Interior Wilbur today formally allotted Boulder Dam Power, giving 50 per cent to the Metropolitan Water District of Southern California, 25 per cent to Los Angeles and 25 per cent to the Southern California Edison and Associated Companies. The allotments were made subject to deductions which may be made later for Nevada, Arizona and certain cities whose applications have not yet been received.

There are 6,582,000 miles of highway in the world.

### Prisoner Cut Throat

Hillsboro, Ill., Oct. 22.—(UP)—Despondent because of his incarceration in a county jail cell on a charge of having committed robbery, Edwin Taubler, 28, made an unsuccessful attempt at suicide here last night. He slashed his throat with a safety razor blade but will recover.

When you need Job Printing call No. 5. Printers for 79 years. B. P. Shaw Printing Co.

Xlograph is the name given to an engraving on wood or an impression thereof.

## Democrats To Open Illinois Office Soon

Chicago, Oct. 21.—(AP)—Democracy's newly adopted plan of maintaining permanent headquarters in each state will have its first tryout with the opening here soon of the Illinois headquarters. Thomas F. Donovan, National Democratic Committeeman for Illinois, announced today.

The plan of permanent state headquarters was evolved after Gov. Alfred E. Smith, the party's opponent of President Hoover last November, asserted that the few months of campaigning between national conventions and elections were insufficient to present to the voters all the vital issues in a presidential campaign.

"It will be our aim to scan carefully the national political horizon for signs of political movement vital to the well-being of the great which may later develop into issues mass of the people," Donovan said. "The present undertaking is the greatest single forward step toward the emancipation and enlightenment of the voters ever attempted in the history of American politics."

Following a test period here, it was stated permanent headquarters would be established in other states.

### Suicide Is Mystery

Boston, Oct. 21.—(UP)—Friends of Dix Harwood, 35, textbook editor, were mystified today by his suicide.

Harwood, a native of Carrollton, Ill., was found dead yesterday in the gas-filled kitchen of his Back Bay apartment.

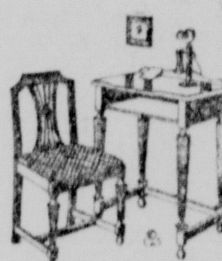

"I want to die. I have nothing to live for," read a farewell note.

Friends said he had a good position as editor for the D. C. Heath Company, textbook publisher, and seemed in excellent health. Only recently he returned from a vacation in Bermuda.

### Bridge Plans O. K.

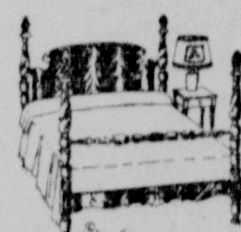

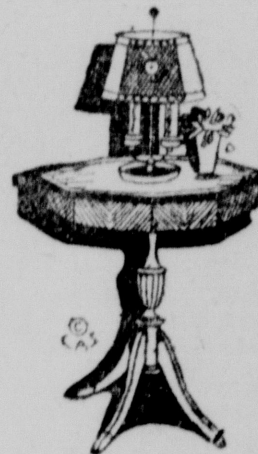

Washington, Oct. 21.—(AP)—The War Department today approved plans of Indiana Highway Commission and the Illinois Department of Public Works for a new bridge across the Wabash river at Vincennes, Ind., under authority of the act of June 20, 1929. It will replace one spanning the river in that locality.

### BABY BEEF CALF CLUBS OF GREAT VALUE TO YOUTHS

Accomplish What Used to  
Require Years of  
Hard Work

Urbana, Ill.—(AP)—What it took old-time cattle feeders 25 years of hard knocks to learn is being mastered in amazingly short order by Illinois farm boys and girls going the carefully supervised feeding required in their 4-H baby beef club projects, it is reported by E. T. Robbins, livestock extension specialist of the College of Agriculture, University of Illinois.

This is his observation after a summer partly spent in visiting the young cattle feeders to review their progress and help them with their methods. There are 1,350 farm youngsters of the state enrolled in the baby beef project, according to E. T. Robbins, boys' club specialist of the college.

"Ten years hence these calf club members will be the leading cattle feeders of the state," Robbins said. "That they already have made a good start in this direction is evidenced by the compliments passed around the ringside by old cattle feeders when club calves are being displayed."

"The calf club shows of the past summer have brought together fatter calves than the average of previous years. As a whole, the young feeders are making real progress. Even without previous experience some of them have done wonderfully well. Most of the higher prizes in each show, however, have been won by boys and girls who have been in club work before."

"These youngsters who have had two or three years' experience in feeding beef calves are better than the average needed in a carload to top the market."

"It is in the choice of feeds that the young feeders score their greatest success, and feed represents about 85 per cent of the cost of fattening cattle. The clubs have taught the youngsters to appreciate the faster gains, thicker flesh and better blood of these calves which have been fed enough linseed oil or similar high-protein feed to balance the nutrients in the corn and oats. The results also demonstrate the advantage of legume hay and of allowing the calves little or no grazing. Most of the protein feeds used by the club members have been those of suitable quality which supply protein at the lowest cost per pound."

### Weekly Review of Agriculture by Farmers Paper

Chicago, (AP)—The conspicuous feature of the cattle trade during the past week was a near runaway demand for good to choice yearling steers and heifers which advanced from 50 cents to \$1, while heavy steers were barely steady to 50 cents lower, the weekly market review by Prairie Farmer said. "Lower grade light cattle shared to some extent in the rise on better grades," the review said, "while intermediate grades of 1200 to 1350 pound steers were hard to move at the decline. The week's top of \$16.50 at Chicago was paid for long yearlings. Stocker and feeder buyers continue cautious, with average prices 50 cents to \$1 below a year ago."

"Hog prices have fluctuated over a narrow range in the last two weeks, with light yearlings losing some ground and heavy butchers and packing shows showing a moderate advance. Receipts have fallen off somewhat and dropped below last year for the first time in over three months. Demand for hog products improved somewhat at the lower prices."

"Lamb prices have regained most of the loss at the start of October and prices have rallied at Chicago to \$12.75. Receipts have declined for three successive weeks. An uncertainty prevails in the wool market because of weakness abroad."

"The long-awaited expansion in foreign demand for North American wheat showed up in a mild way in the past week. Stocks of wheat in Europe are quite large and only limited funds are available for buying additional amounts. Hence the development of foreign demand may be slow. Receipts at domestic markets have been falling rapidly and for several weeks they have been only about half as large as last year."

"Producers are showing willingness to sell new as well as old corn on strong spots in the market, hence rallies have not held well recently. The country still has enough old corn to maintain an ample movement for another month, by which time the supply of new corn will become large. Congestion of storage

space tends to restrain the terminal elevator demand. Hay markets were generally steady last week. Demand for high-grade leafy hay suitable for dairies was high.

"Receipts of eggs are decreasing more rapidly than at this time a year ago and supplies of fancy high-grade stock remain scarce. Values have held steady during the past week at the highest level of the season, and most dealers seem agreed that prospects for a continued strong market are assured until fall receipts are affected by the larger pullet crop on the farm."

"Thus far, market receipts of poultry are exceeding those of last year and the movement into storage is much heavier."

"Butter prices have shown some recovery following the break which carried prices several cents below the fall top. Receipts have increased as was expected. Prices are likely to work some higher, but probably will not reach as high a level as last year."

### The Farm Week in Washington

BY FRANK I. WELLER

Farm Editor  
(Associated Press Feature Service)  
WASHINGTON (AP)—It has taken a special letter from Chairman Legge of the farm board to Senator McNary, chairman of the senate agriculture committee, to straighten out the term "stabilization."

Behind the letter is the fact interference crept into various reports that stabilization operations, in event of a large surplus of any commodity would consist of the farm board itself buying and taking off the market some considerable tonnage so as to relieve the pressure. That operation properly belongs to the commodity corporation and not to the board, it was pointed out.

Another point concerns what shall constitute emergency stabilization and the nature of the corporation's action in the market. What may be taken as an example. Should the time come when surplus production forced the domestic price to disastrous levels, "stabilization" would consist of the grain corporation taking certain quantities off the market and storing it for future return.

Whether the corporation would buy at the current market price or at the price it believed wheat to be worth never has been determined and is expected to be one of the biggest questions in administration of the agricultural marketing act should such an operation be undertaken.

World conditions probably would be the determining factor. By law the corporation must make reasonable provision against loss. If the price were 50 or 80 cents a bushel and the corporation believed wheat actually to be worth \$1 or more, it would have to decide whether to buy as low as possible or peg the market.

Some hold that if it bought at the higher price the market automatically would rise to that figure.

#### GINSENG

Hillside, Mich.—(AP)—Chinese epicures who like ginseng in their food are solving the farm problem for E. H. Trumper and other Hillside county farmers.

The Oriental likes the licorice taste and because he uses ginseng in medicine as well as to flavor his food, Michigan growers are building up a brisk business in exporting the root through eastern buyers.

Trumper figures ginseng profit at about \$1,000 an acre. It is not hard to raise and is unaffected by price fluctuations to which many farm crops are subject.

Ginseng is planted in rows under a framework about eight feet high. The frame is thatched with leaves and straw as a protection against the sun. From five to six years are required to bring small plants to maturity. After that there is a steady production each year.

Roots are dug early in November. They are dried for 30 days in a temperature of 90 degrees. From 2,000 to 3,000 plants are harvested from an acre. Roots bring \$10 to \$16 a pound.

#### VISIBLE GRAIN SUPPLY

New York, (AP)—The visible supply of American grain shows the following changes in bushels:

Wheat, increased 229,000; corn decreased 43,000; oats increased 1,467,000; rye increased 314,000; barley increased 234,000.

In West Australian deserts there are wells which yield water only at night.

### NATIONAL CORN HUSKING MEET IN NOVEMBER

To be Held at Platte  
City, Neb., Fifteenth  
of Next Month

Platte City, Mo.—(UP)—The sixth annual National Corn husking contest, regarded by farmers as one of the biggest athletic events of the year, will be held here this year on November 15.

Three-time winners, are expected to enter.

Among these is Elmer Williams, Toulon, Ill., who set a record of 35.8 bushels husked in 80 minutes, which amounts to 40 ears a minute. Williams went down to defeat last year against Walter Olson, his neighbor, at the contest at Fowler, Ind. Fred Stanek of Iowa, three times national titleholder, is expected to enter.

State champions are being selected this month.

The state and national contests are being sponsored by a group of farm papers. Two winners, first and second place, will come to the contest from Missouri, Kansas, Nebraska, Iowa, Minnesota, South Dakota, Illinois and Indiana.

The national contest is being arranged by George Jordan, of the Missouri Ruralist, who has completed arrangements with Platte county farm bureau and the Platte City chamber of commerce.

Twenty-five thousand persons are expected to attend, Jordan said. Plans include the broadcasting of the event over a National Broadcasting Company network.

### Farmers to Support Cooperative Policy

Washington — (AP) — Convinced that its best work can be done only when American farmers become "co-operative conscious," the federal farm board has initiated steps to educate the nation to a definite national policy.

Federal and state extension forces and land grant colleges and universities have been brought into the program.

They will support the educational movement by training men in the colleges of agriculture in sound co-operative marketing leadership.

Through the college extension army of county agents, the proper information can be carried to the farmers, to aid them in organizing new associations and in improving old ones so that their program of marketing will fit into the national commodity-selling plan.

Experiment station experts will be used to make studies in marketing just as has been done in improving production.

Leaders believe that competing cooperatives should get together and eliminate the features that keep colleges from actively supporting them. They say the country needs a national agricultural policy to guide colleges in their efforts to aid farmers through cooperative marketing instruction.

When the colleges are united on a program of instruction in cooperative marketing there is little doubt that farmers will support it.

### BROOMCORN CROP SHORT IN OKLAHOMA DISTRICT

Lindsay, Okla.—(AP)—A low broomcorn yield is predicted this year for western Oklahoma, which ordinarily produces about half the nation's supply.

Buyers and growers claim the state's decreased yield is due to smaller acreage and thinness of stand, caused by lack of sufficient rain. Wheat has replaced broomcorn in many fields.

### Woman Fought Cops

Brazil, Ind., Oct. 21.—(UP)—A woman, who said she believed she was "killing devils," held Brazil police off for five hours with a shotgun after she had snapped a loaded revolver in the face of Patrolman John Matthews.

Mrs. Charles Armstrong, 33, opened fire on the officers when Matthews summoned reinforcements.

Efforts to set off tear gas bombs in the house failed and officers would not fire because of the presence of several children in the home. They gained admittance with the aid of Charles Armstrong, her husband.

### OGLE CO. FARM BUREAU STARTS YEARLY PROJECT

Beef Calf Club Will be  
Established; Com-  
mittee Named

Ogle County Farm Bureau has begun a Beef Calf Club Project, with the appointment of a committee of three to make general arrangements for securing members and purchasing calves for the boys and girls who wish to belong to the club. The committee consists of L. D. Carmichael, Rochelle, Chairman; George Diehl, Mt. Morris; Charles Gatz, Polo; and D. E. Warren, Farm Adviser.

They held a meeting Monday and drew up general rules for the project. Boys and girls ten years old and under twenty-one will be eligible and they do not need to be from Farm Bureau families. Enrollment must be made this week if possible.

The calves will be purchased by the County Committee and will be distributed to the members by lot at a drawing to be held as soon as the calves can be bought and the enrollment of members obtained.

The members will be organized into local clubs wherever possible so that meetings can be held and instructions given to the members during the club season. The calves are to be shown at the County Fair at Oregon next year where liberal premiums will be given.

The following men have been chosen as local committee men and they will take the enrollment of boys and girls who wish to join: Polo Committee: Chas. Gatz, Polo, Robt. Copenhaver, Polo; Arthur Schell, Polo; Frank B. Wilson, Polo; D. J. Frey, Polo; Edgar Metz, Polo; A. J. Sweet, Polo; John Tavenner, Polo.

Mt. Morris and Forrester Committee: George Diehl, Mt. Morris; Ed Mumma, Mt. Morris; O. J. Trei, Forrester; Harry Newcomer, Mt. Morris; C. H. Stengel, Mt. Morris; Elmer Zundahl, Mt. Morris.

Rochelle Committee: Howard Johnston, Holcomb; John Dummer, Davis Junction; Lincoln Countryman, Rochelle; J. R. Pierce, Rochelle; Wm. Vanstone, Creston; H. B. Ludwig, Rochelle; Ralph Sanford, Ashton.

Boys and girls in Ogle County or in territory adjoining who would like to be members of the Beef Calf Club should get in touch with one of these committee men or any Farm Bureau member immediately or get word to the Farm Bureau office at Oregon. It is expected to close the enrollment by the end of this week or the first of next because it will be necessary to get the calves within the next couple weeks in order to get the kind that are wanted. The committee are trying to secure calves that will weigh about 350 lbs. and are hoping to get them at about 13c or 14c per pound.

Experiment station experts will be used to make studies in marketing just as has been done in improving production.

Leaders believe that competing cooperatives should get together and eliminate the features that keep colleges from actively supporting them. They say the country needs a national agricultural policy to guide colleges in their efforts to aid farmers through cooperative marketing instruction.

When the colleges are united on a program of instruction in cooperative marketing there is little doubt that farmers will support it.

### Found Dead in Ditch

Indiana Harbor, Ind., Oct. 21.—(AP)—With his neck broken Peter Gregovich, 17, was found dead today in a ditch here. He had just returned from Memphis, Tenn., with a companion whom police have been unable to find. Gregovich was last seen alive in a restaurant with the other youth.

A crab, said to be the world's largest, was caught off the coast of Japan. The creature was more than 18 feet long.

### Woman Fought Cops

Brazil, Ind., Oct. 21.—(UP)—A woman, who said she believed she was "killing devils," held Brazil police off for five hours with a shotgun after she had snapped a loaded revolver in the face of Patrolman John Matthews.

### LURE OF FARM UNDIMINISHED IN LOWDEN'S HEART

Ideal Place for Voca-  
tion and Home Ex-  
Governor Says

Ames, Ia., Oct. 21.—(AP)—The lure of the farm, not only as a vocation but primarily as a home remains undiminished through the years in the heart of Frank O. Lowden, former Governor of Illinois, who left Ames today after presiding at the annual convention of the American Country Life Association.

Particularly does Mr. Lowden urge persons who "have passed the meridian of life" to remain on the farm instead of removing to town or city. He has put into practice this doctrine in his own life. Mr. and Mrs. Lowden make their home on Sinsinippi Farm, near Oregon, Ill., where they have built up a model establishment.

"I like to think of the American farmer on a family-size farm who instead of adding to his acres, concerns himself with making more productive the acres he has," Mr. Lowden said. He believes the family-size farm will continue to be the basis of agriculture in this country, and decries establishment of a corporation farms which, he thinks, cannot last.

Mr. Lowden sees a bright future for agriculture. To his mind, however, it is more than a vocation—it is a way of life.

"The farm," he explained, "is at once a home and a place of business. The business is a cooperative enterprise in which all the members of the family join."

### FARM BOARD TO EXTEND AID TO WHEAT GROWERS

Will Announce Scheme in  
Few Days; Plan Help  
for Cotton

Washington, Oct. 21.—(AP)—As the first major step of its career, the Federal Farm Board has worked out a plan for improving the present price of cotton and is prepared to take a similar action on wheat under a scheme to be announced later.

The board is of the opinion that prevailing cotton prices are too low, and believes the solution lies in more orderly marketing of this year's crop. It is prepared to lend an unlimited amount of money to the cotton growers, that they may hold their product off the market.

Analyzing the present cotton market, the board is of the opinion that fall weather in the southern states had led to too rapid marketing, with world consumption meanwhile on a level equal to that of last year and the total supply of American cotton at a lesser stage than a year ago.

More cotton, it believes, has been rushed into the market than it can temporarily absorb, with resulting depressed prices and lack of confidence in cotton values.

In a statement announcing its plan, the board pointed out that there is a cotton cooperative in every cotton growing state open to mem-

bership of every cotton farmer. The grower may join the cooperative, the statement continued, ship his cotton to its concentration point, and draw his advance after it has been graded and classified.

The cooperative will market the cotton in orderly fashion through the year, said the board, and will finally settle with the farmer "on the basis of the final price obtained."

"The board places no limit on the amount of government money to be so loaned," the statement said. "Nearly \$100,000.00 is available for the purpose, and, if necessary, the board will also ask congress to appropriate more."

### Star Witness a Dud

Chicago, Oct. 21.—(UP)—William Scott Stewart, noted criminal attorney, faced a contempt charge today because he interviewed Eddie Mack, murder suspect, in connection with the trial of Willie Doody, baby-faced bandit and gunman, on charges of slaying Police Chief Charles Levy of Berwyn.

Judge Otto Kerner announced that he would withhold decision on the contempt charge until late today and meanwhile call attorneys together for contempt against Stewart in the Rongetti case is pending in state Supreme Court.

Stewart, who is defending Doody, admitted interviewing Mack but contended he was within his rights.

Doody paid little attention to proceedings today, spending most of his time sipping around the room and twiddling his thumbs.

Mack was placed back on the stand today as a state's witness and questioned about his denial of knowing Doody. Mack was arrested the night of the Levy murder and at that time told police, they said, that Doody was the man who killed Levy.

Today Mack denied that he had identified Doody as the murderer.

The state had announced that Mack would be their chief witness in its efforts to send Doody to the electric chair for the murder.

### Rockne Insists He'll See Pittsburgh Game

South Bend, Ind., Oct. 22.—(AP)—Physicians will have to do a lot of talking and threatening to keep Coach Knute Rockne away from Pittsburgh and the Carnegie Tech. Notre Dame football game Saturday.

Rockne stayed away from Pittsburgh once and never has forgiven himself.

In 1926, the Notre Dame Wizard decided he would like to see the Army-Navy game at Chicago. So he sent his great team to Pittsburgh to play Carnegie certain it would bring back the bacon. Carnegie startled the football world and Rockne as well by swamping the Ramblers.

"I don't want to miss a Pittsburgh trip after that 1926 episode," said Rockne, who has been forced to remain at home during the past two weeks ends because of his ailing leg. "I'll go this time if I have to go in a wheel chair."

### CONVENTION OF DISCIPLES TO BE HELD THURS.

Dixon Members To  
Have Part in Meet-  
ings at Sterling

Sterling Christian church will be host to the congregations of seven counties surrounding it next Thursday for the annual one-day convention of Christian churches in this region, promoted by the United Christian Missionary Society of Indianapolis, Ind. Ten such gatherings will be held in Illinois, 212 in the whole nation. It is a recent method employed by the general missionary, benevolent and educational agencies, to bring first-hand information directly to the people. Last year, 201 such assemblies were held in the coast-to-coast schedule attended by 54,642 persons.

The Illinois team of leaders and speakers is: F. W. Burnham, President of the United Society; E. K. Higdon, missionary in the Philippines; O. T. Mattox, Religious Education expert; Mrs. Chas. J. Pardee, State President of the Woman's Work; Mrs. Silas Jones of the Eureka College faculty; and two others representing the new Pension Plan and State Missions.

The hour-by-hour outline of addresses follows:

Convention theme — "Witnessing for Christ."

**Morning Session**  
10:00 "Tarrying at Jerusalem" (devotional)  
10:15 The Christian College.  
10:40 The State Work  
11:05 The Pension Fund.  
11:30 Missionary's Address  
**Afternoon Session**  
1:30 The Deepest Need (devotional)  
1:45 Witnessing thro' Benevolence, Education and Missions.  
2:45 Pentecostal Sharing  
3:15 Undergirding the Regular Work of the Church.  
**Evening Session**  
6:30 Banquet and Fellowship.  
7:15 Introductions.  
7:30 The Witness of the Missionary  
8:00 The Local Church Leader and the Christian Message.

The banquet will feature the attendance of the church board members, with the theme, "Witnessing through Leadership."

### Wife Is Arrested

Nokomis, Ill., Oct. 21.—(UP)—Otis Lockhard, 39, coal miner was near death and his wife Mary Lockhard, was held in the Montgomery county jail today as the aftermath of a shooting scrape at the Lockhard's home here, last night. Lockhard is said to have been shot by his wife following a quarrel.

Call No. 5 and end out about our Accident Insurance Policy. It costs but \$1.25 for a year's protection. In case of death your estate will receive \$1,000. Dixon Evening Telegraph.

## NEW STEAMERS SOON TO SERVE 'COFFEE PORTS'

Panama Mail Building 5  
Vessels to Call at  
Central America

By FRANK H. BARTHOLOMEW  
(United Press Staff Correspondent)  
San Francisco, Oct. 22.—(AP)—Twenty million dollars worth of new steamships are going to bring the "coffee ports" of Central America closer to New York, Los Angeles and San Francisco by September of 1930.

New York-to-San Francisco passenger traffic, via the Panama canal and the Spanish America, similarly will be speeded up by a saving of one third of the present steaming time with the advent of a new fleet of five steamers to be built for the Panama Mail Steamship company.

Construction of the first of the new liners probably will start next month, as soon as a pending subsidy for transportation of United States mails to Central America is concluded. This subsidy will amount to approximately a quarter million dollars a year.

Three of the five new liners are to be built as the first unit. Dauton Mann, general manager of the Panama Mail, told the United Press.

Speed of 18 Knots  
They will have a speed of 18 knots an hour, as compared with the present 12-knots liners now serving the two American coast and "the lands between" of Central America and Colombia, South America.

They will complete in 20 days the New York-to-San Francisco run now requiring a month.

The first three ships will be 500 feet in length and will cost \$3,500,000 each. Accommodation for 350 passengers will be provided. The vessels will be especially designed for this route, having shallow draft because of the harbor depth limitations at Puerto Colombia, Colombia, and Corinto, Nicaragua, and the necessity of anchoring in the open roadstead at La Libertad and Acapulco, San Salvador; San Jose de Guatemala and Champerico, Guatemala, and Mazatlan, Mexico.

German Competition  
The increasing popularity of the waterway from coast to coast by way of the Spanish Americas, and the

additional travel between the Central American ports themselves has over-taxed the capacity of the present fleet and made necessary immediate increase in passenger facilities according to William A. Young, Jr. of this company.

A fight with the German lines for coffee tonnage, principally from the Republic of Colombia is said to be another factor in the decision to increase, in capacity and speed, the American fleet.

The German boats are all new since the war. At present the Hamburg-America carries the most coffee from Puerto Colombia of any single line, although the American companies collectively have the best of things.

The new liners for the Panama Mail will probably be built at Newport News, Va., Fall River, Mass., or at one of the New York shipyards.

## Phillies' Catcher is Fatally Injured

Baltimore, Oct. 22.—(AP)—Walter Lorian, Philadelphia National League catcher, died today of injuries received when a motor truck hit him on a sidewalk.

John Mooney, a former sand lot baseball player in the days when "Peck" was playing with the St. Martin's club, gave a pint of blood for transfusion operation.

Lorian was struck yesterday afternoon. Police said that Charles Lloyd, driver of the truck, swerved to avoid a collision with another machine, and ran onto the sidewalk, crushing Lorian against a building.

Inflicting internal injuries, severe body bruises and breaking a leg.

Lloyd was arrested, as well as August Meyers, driver of the machine which Lloyd was avoiding at the time of the accident. Both were released on their own recognizance.

Lloyd was charged with reckless driving and Meyers with failing to give right of way.

"Peck" Lorian went to the Philadelphia Nationals from the New Haven club of the Eastern League in 1928.

He caught in 104 games for the Phillies during the 1929 season and batted .222.

He began his baseball career 10 years ago with St. Martin's Catholic Club, of Baltimore. He signed with the late Jack Dunn, manager of the Baltimore Orioles, when he was 17.

## HARMON TRYING TO MATCH SCOTT WITH J. SHARKEY

Thinks Meeting of Two  
Heavies Would Fill  
Big Stadium

By BERT DEMBY  
(United Press Staff Correspondent)  
Chicago, Oct. 22.—(UP)—Believing he can draw \$300,000 in his Chicago Stadium which seats 25,000 Promoter Paddy Harmon has announced he is attempting to sign Phil Scott, British heavyweight contender, and Jack Sharkey, the Bostonian for a bout sometime in December.

Harmon said that if he is successful in bringing the heavies together he will bill the match as a heavyweight championship affair and award the winner a belt emblematic of the title left vacant by the retirement of Gene Tunney.

So confident is Paddy that this bout would fill his house he is willing to lay down a \$100,000 guarantee or split 60 per cent of the net receipts between the two fighters.

The Stadium can be sealed so that a total of \$310,000 can be taken in for a sell out at prices which Harmon believes the fans here will pay. Sixty per cent of that figure would total \$186,000 and Harmon said it would be up to the two fighters as to what percentage each would get.

"That is a matter they'll have to agree on," he said.

Would Boost Prices  
In staging this match Paddy would be forced to deviate from his plan of charging a top price of \$5.99 for all shows. Barring his opening fight, a championship affair between Tommy Loughran and Mickey Walker, Paddy has stuck to his plan and charged only that figure for the title affair between lightweight Champion Sammy Mandell and Tony Canzoneri.

"I think the middleweight is anxious to see Sharkey," Paddy said. "We've heard so much about him out here that he has been built in to a card for us. Numerous times I've heard the query 'Why don't you put on Sharkey? Jack certainly proved he is worthy of heavyweight title consideration when he turned loose on Tommy Loughran.'"

Whether Harmon can get Sharkey remains a problem. Jack reportedly is signed with Madison Square Gar-

den for his bouts and if this is so there probably won't be any Scott-Sharkey fight here.

But, at any rate Harmon probably will make a determined effort to obtain the match. He has a mammoth building to keep running and there are mighty few fighters right now who can draw enough into the building to make a fight pay.

Tony Canzoneri has made money for the Stadium. Sammy Mandell also has brought the fans out and Young Earl Mastro has contributed his share of the drawing power but outside of that there are few fighters who can make a Stadium bill pay without a strong back-up bout on the same card with them.

Tuffy Griffith, by his showings in his last two fights has made it appear he will draw a good house his next out which will find him meeting Paolino Uzcudun next month.

Jack Berg, London's contribution to the card, had more success in the semi-final, winning a whirlwind battle from Bruce Flowers, New York lightweight. It was Berg's third victory over Flowers.

Ruby Goldstein, New York middleweight, shortened the scheduled 60 rounds of boxing to 43 by stopping Joe Reno of Trenton, N. J., in the third frame of their battle.

Maxie Rosenbloom, light heavyweight, opened the program with a decisive ten round victory over Joe Seykora of Dayton, O., and Yale Okun, another light heavyweight from New York, pounded out a victory over Matt Adgie of Philadelphia in the second ten rounder.

Pro Golfers Off On  
Tour of South, West  
New York, Oct. 22.—(AP)—A golf tour of the west and south, which includes the Professional Golfers' Association championship at Los Angeles, in December and ends with the

Fire and Auto Insurance. H. U. Bardwell.

## Jewish Battlers On Top in N. Y. Scraps

New York, Oct. 22.—(AP)—Nearly 20,000 contributors to the Palestine Relief Fund paid \$101,000 to attend bouts at Madison Square Garden last night, and they were repaid with five victories for Jewish boys.

Al Singer, lightweight, received something of a surprise in the final ten rounder from Davey Abad, brown skinned battler from Panama, whose clever boxing kept Singer from landing more than a few solid blows in the eight rounds. Al finally solved the South American's style in the closing rounds to gain a decision.

Jack Berg, London's contribution to the card, had more success in the semi-final, winning a whirlwind battle from Bruce Flowers, New York lightweight. It was Berg's third victory over Flowers.

Ruby Goldstein, New York middleweight, shortened the scheduled 60 rounds of boxing to 43 by stopping Joe Reno of Trenton, N. J., in the third frame of their battle.

Maxie Rosenbloom, light heavyweight, opened the program with a decisive ten round victory over Joe Seykora of Dayton, O., and Yale Okun, another light heavyweight from New York, pounded out a victory over Matt Adgie of Philadelphia in the second ten rounder.

Pro Golfers Off On

New York, Oct. 22.—(AP)—A golf tour of the west and south, which includes the Professional Golfers' Association championship at Los Angeles, in December and ends with the

Fire and Auto Insurance. H. U. Bardwell.

## North and South open at Pinehurst late in March is getting under way.

The vanguard of professionals composed of Bill Melheim, Craig Wood and Bill Burke leaves here tomorrow to take part in the \$4000 Oklahoma City open this week-end. Al and Abe Espinosa, Tommy Armour, Ed Dudley, Joe Kirkwood and Dan Williams are expected to join them at Oklahoma City. Walter Hagen and Horton Smith, who are playing exhibitions on the Pacific Coast, are due to enter the caravan at Portland, Ore.

The grand tour of professional golf this year takes the players as far west as Honolulu and south to Mexico for the Agua Caliente open which boasts the richest purse in golf, \$25,000, before they swing back to Florida in February. Prize money for the 19 tournaments totals close to \$125,000.

More than a dozen pros from the metropolitan district including Johnny Farrell, Gene Sarazen, Bobby Cruickshank and John Golden, will take part in the tour as well as many from other parts of the country.

From opening going to closing bell the pair slugged in a frenzy of rights to the jaw and body that had a crowd of 30,000 in a near state of hysteria here last night. Fields' title was not at stake.

Jones, a dangerous puncher, carried the fight to the champion in the opening sessions but Fields' aggressiveness and stamina wore down the Negro in the closing rounds. Fields' margin of five rounds was decisive but the Gorilla's stubborn stand, during which he rocked the champion several times with stiff right hand punches to the jaw, made the victory extend himself to his utmost.

FIGHTER ARRESTED  
New York, Oct. 22.—(AP)—After his fight with Al Singer at Madison Square Garden last night, David Abad was arrested at the request of the Chief of Police of Cleveland, for violation of probation. Abad gave his age as 21.

NEED LETTER HEADS?  
B. F. Shaw Printing Co.  
Printers for 79 years. Tel. No. 5.

By all means avail yourself of an opportunity to procure one of the Dixon Evening Telegraph's Accident Insurance Policies.

Britton is Released  
By Chicago Cardinals  
Chicago, Oct. 22.—(AP)—Earl Britton, former University of Illinois fullback, who played alongside of Red Grange, has been released by the Chicago Cardinals of the National Pro Football League. Britton has been unable to devote much time to football because of other interests.

Fait Elkins, Indian football and track star, Jim Lang, Louis Larson and Bill Rooney, also have been let go by the Cards.

## Jackie Fields Given Hard Fight by Negro

San Francisco, Oct. 22.—(AP)—Out of ten rounds of as furious fighting as has been seen here in recent months, Jackie Fields, world welterweight champion, today emerged undisputed if not unscathed victor over Gorilla Jones, Akron, O., Negro.

From opening going to closing bell the pair slugged in a frenzy of rights to the jaw and body that had a crowd of 30,000 in a near state of hysteria here last night. Fields' title was not at stake.

Jones, a dangerous puncher, carried the fight to the champion in the opening sessions but Fields' aggressiveness and stamina wore down the Negro in the closing rounds. Fields' margin of five rounds was decisive but the Gorilla's stubborn stand, during which he rocked the champion several times with stiff right hand punches to the jaw, made the victory extend himself to his utmost.

FIGHTER ARRESTED  
New York, Oct. 22.—(AP)—After his fight with Al Singer at Madison Square Garden last night, David Abad was arrested at the request of the Chief of Police of Cleveland, for violation of probation. Abad gave his age as 21.

Britton is Released  
By Chicago Cardinals  
Chicago, Oct. 22.—(AP)—Earl Britton, former University of Illinois fullback, who played alongside of Red Grange, has been released by the Chicago Cardinals of the National Pro Football League. Britton has been unable to devote much time to football because of other interests.

Fait Elkins, Indian football and track star, Jim Lang, Louis Larson and Bill Rooney, also have been let go by the Cards.

## Public Service, Not Politics, Influence

Washington, Oct. 21.—(AP)—President Hoover in reply to a protest from Florida over the appointment of a federal attorney has announced it is the duty of the Chief Executive to make selections on the basis of public service and not for political reasons.

The letter, made public at the White House today, was in reply to a communication from Fred E. Britten, secretary of the Republican party in Florida, on the appointment of Federal District Attorney Hughes. It asserted the Florida secretary and other Republican leaders in that state had overlooked the "primary responsibility" incumbent on the Chief Executive "to appoint men to public office who will execute the laws of the United States with integrity and without fear, favor or political collusion."

"I note your demand," the letter said, "that the organization shall dictate appointments in Florida irrespective of merit or my responsibility and that you appealed to the opponents of the administration to attack me. The success of the Republican party rests upon good government, not on patronage."

The Chief Executive wrote that Hughes was especially competent in the enforcement of the prohibition law and that all of the federal judges in Florida had attested to his ability and experience.

Britten replied to the President assuring him of the cooperation of the party organization.

# The Cow is off the Track! AN ANCIENT PREJUDICE HAS BEEN REMOVED

Railroads have safely passed those danger signals of prejudice which caused folks to look upon them with fear. Holding aloft the semaphore of progress AMERICAN INTELLIGENCE cleared the track and, today, millions travel in ease and security.

## "toasting did it"—

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

# "It's toasted"

No Throat Irritation—No Cough.

TUNE IN—The Lucky Strike Dance Orchestra, every Saturday night, over a coast-to-coast network of the N. B. C.

© 1929, The American Tobacco Co., Mfrs.

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan, "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.

Girl Flyers Seek Refueling Mark

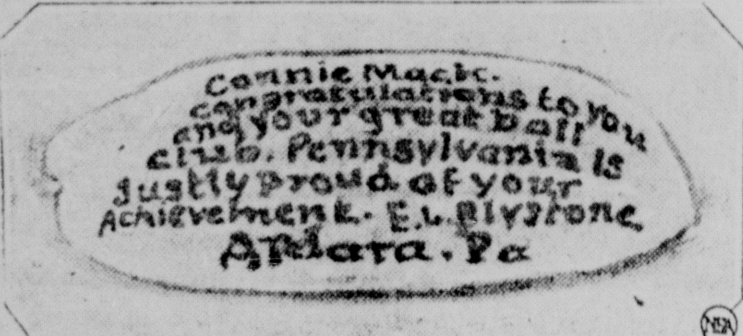

Two of America's most famous girl flyers—Elton Smith, inset, and Bobbie Trout—plan to establish the first endurance refueling record for women at Los Angeles early in November. Miss Trout, who will handle the refueling hose, is shown, at right, as she practices making contact. The other picture shows her talking to Jack Sherrill, who will be manager of the flight.

He'd Make Gallons of Good Soup!

One of these days, especially if he proves a flop in terrapin races, this 175 pound terrapin captured in Maverick county, Tex., may find himself just so much turtle soup. Biologists say he has lived hundreds of years. They call him "Whoopie," probably because C. E. Miller, owner, thinks he will raise whoopee in Oklahoma terrapin races this fall.

All Written on a Grain of Rice

This is undoubtedly the smallest tribute that could be paid to Connie Mack—a message written on a tiny rice grain congratulating the Philadelphia Athletics' manager on winning the World Series. Above you see a photographic enlargement of the grain, less than five-sixteenth of an inch long and glued to an ordinary visiting card, which E. L. Blystone of Ardara, Pa., sent to NEA Service, news feature syndicate representing the Dixon Evening Telegraph, to be forwarded to Mack. The message was written under a microscope.

"Aunt Fanny", 103, Tells How To Pass Century Mark

Work Hard and Live Simply, Her Formula; Drinks Coffee Every Meal

NORFOLK, Va.—Mentally alert and physically active, Mrs. Frances Hurst recently celebrated her 103rd birthday at her home at New Point, Mathews County.

To a multitude of descendants who gathered for the occasion, including five generations in one branch of the family, she announced that she intends to live for some time to come and gave advice for surpassing the century mark.

Mrs. Hurst's formula for a long life is a simple one. She has worked hard, eaten anything she wanted to eat and refused to worry. She drinks coffee at each meal, frequently taking two cups of it. In fact, she has drunk coffee all her life and she cannot find that it has harmed her. She goes to bed with the birds and gets up with the sun and often walks three or four miles a day. She has never worn glasses and her eyesight now, she says, is as keen as it was before the Civil War.

Born when Abraham Lincoln was but seventeen years old, Mrs. Hurst has seen the United States grow from an infant republic into a world power. She has seen the pack-horse replaced by the stage coach, the stage coach supplanted by the railway, and now the hum of airplanes over her Virginia home is a familiar sound.

Mrs. Frances Hurst

Mrs. Hurst or "Aunt Fanny", as she is affectionately known, has not allowed the advancing years to dull her interest in what is going on in the world. She keeps up with events by reading the newspapers. Not has she lost her sense of humor.

The other day a neighbor, who had attained the ripe old age of 80 called upon her. "Aunt Fanny," he said, "we are getting old, aren't we?" "Lord, honey," she replied, "you're just a baby, and you talk about getting old."

LEGAL PUBLICATIONS

CHICAGO AND NORTH WESTERN RAILWAY COMPANY. Notice of Special Meeting of Stockholders to be held November 18, 1929.

A SPECIAL MEETING OF THE STOCKHOLDERS OF CHICAGO AND NORTH WESTERN RAILWAY COMPANY will be held at the office of said company, No. 400 West Madison Street, in the City of Chicago, Illinois, on MONDAY, NOVEMBER 18, 1929, at 11:00 o'clock A. M., for the following purposes:

(1) to consider and take action upon a proposal to increase the authorized capital stock of said company from \$200,000,000, par value, to \$300,000,000, par value, by increasing the authorized common stock of said company, such increase to consist of 1,000,000 shares of the par value of \$100 each;

(2) if such increase of authorized capital stock be sanctioned and authorized at said meeting, to authorize the issue of said additional stock as the Board of Directors of said company may from time to time determine;

(3) if such increase of authorized capital stock be sanctioned and authorized at said meeting, to consider and take action upon a proposal to authorize the issue of not exceeding \$100,000,000, principal amount of bonds of said company convertible into its common stock;

(4) to authorize the execution and filing of any and all certificates and the taking of any and all other action required under any and all applicable laws to effect said increase of the authorized capital stock of said company and the issue of any and all of such bonds as may be authorized at said meeting; and

(5) to transact such other business of whatsoever character as may properly be brought before said meeting or any adjournment or adjournments thereof.

The books for the transfer of stock of the company will be closed at the close of business on October 18th, 1929, and will be reopened at the opening of business on November 19, 1929.

By order of the Board of Directors. FRED W. SARGENT, President. JOHN D. CALDWELL, Secretary. ALBERT A. SPRAGUE, Director. Dated, New York, N. Y., September 10, 1929.

# Innocent Cheat

© 1929 BY NEA SERVICE INC.

Ruth Dewey Groves

AUTHOR OF "RICH GIRL-POOR GIRL", ETC.

HELEN PAGE thinks she is in love with her childhood friend, ARD BRENT, who changes his plans for her future after meeting a dying man named NEILIN. Brent presents the girl to a millionaire, CYRIL CUNNINGHAM, as his heiress and offers proof which the lonely old man accepts without much question.

Among Helen's new friends are EVA ENNIS and her brother BOB. Brent finds another locked like the one he had taken from Neilin to prove Helen the heiress and plots to get Cunningham out of the way quickly. He tries to administer a shock which proves fatal and the servants find the old man dead in bed. Then he wins Helen's promise to marry him. Later, she and Bob realize they love each other, but she tells him she is engaged. She tries to get Brent to release her, but he refuses and makes dire threats if she dares to marry Bob.

Eva resents Helen's treatment of her brother, which has driven him to flirting with SHALLIMAR MORRIS. She accuses Bob and he tells her Helen is engaged to Brent. She collapses after admitting that Brent has been making love to her and then in a fit of hysteria tries to take poison, but he prevents it. Helen and Bob try to tell her what a end Brent is, but Eva insists that she must see him. Helen decides to see him first, and they quarrel. When she says that she and Bob have made up, he tells her that she is not the Cunningham heiress but the daughter of a noted crook and he refuses to marry him and will expose her.

NOW GO ON WITH THE STORY CHAPTER XLIII "BOB will believe me!"

Helen declared her faith in her lover's trust without a moment's hesitation.

Surprisingly Brent nodded his head in agreement. "Won't you sit down now?" he said. "I've something more to say to you." He glanced at his watch. "Or perhaps you'd better send your friend Shallimar off to the station before we go on with this."

Helen sank into a chair. "She's in the breakfast room," she said weakly. "Tell her I'd like her to take a later train; I can't see her off now."

Brent left to do her bidding, but was quickly back. He noted, as soon as he entered the room, a change in Helen. Given a few moments to think she had decided he was lying to her, tricking her.

How simple it was, of course. She felt like laughing, only somehow there was, strangely, inexplicably, an odor of truth about it all. She fought against it.

"I hated to tell you this," Brent began, deceived by her manner into thinking she was not going to take it so hard after all.

Helen threw back her head and held her eyes fastened levelly on his.

Chicago lineup for at least three weeks as result of injuries received last Saturday. His loss will be felt particularly in the Purdue game due to his effective blocking and defensive ability against aerial attacks. Coach Stag is planning a power attack for the contest with the Boilermakers.

Lafayette, Ind., Oct. 22—(UP)—Purdue will go into the air Saturday when they meet the Maroons, according to information seeping from the Boilermakers' camp. Ralph Welch continues to hold down the fullback post vacated when Alex Yunevich was injured. The game Saturday will determine which team remains in the undefeated column.

Madison, Wis., Oct. 22—(UP)—Tury Oman, will keep his backfield position in the game with Iowa, according to Coach Thistlethwaite. The "Flying Finn," on account of a

brilliant showing against Notre Dame, supplanted Ernie "Bill" Lusby.

Bloomington, Ind., Oct. 22—(UP)—Disappointed with the showing made so far this season by his regular team, Coach Pat Page will promote outstanding players in the Indiana-Iowa reserve team game here last Saturday to take the field against Ohio State. The Hoosiers are endeavoring to build up a strong defense against the veteran Ohio line.

Ann Arbor, Mich., Oct. 22—(UP)—Due to inclement weather, Coach Harry Kipke took his Wolverines indoors for practice yesterday. Intensive scrimmage was conducted inside the fieldhouse, however, with Hudson again replacing Bill Heston in the backfield.

Champaign, Ill., Oct. 22—(UP)—Bob Zupke will not revamp the lineup he used against Iowa when

"I don't believe a word you have said," she stated emphatically. "You don't!" Brent came close, grasped her wrists with cruel strength, forced her down into the chair and towered over her in a menacing attitude.

"You don't?" he repeated. "Then listen to me. I can prove that you are Helen Page and not Cunningham's granddaughter. That will be easy."

Helen still defied him. "But you cannot prove what is not true," she cried. "You cannot prove that I had anything to do with your fraud."

"It will not be necessary to prove it," Brent retorted. "If you persist in marrying young Ennis I shall make your story front page newspaper stuff inside 24 hours."

What then? You aren't Helen Neilin, don't forget that. You'll be toppled from your high and mighty seat to the gutter—possibly you'll have a chance to learn what women's prisons were built for."

"But you . . . you," Helen stammered. "You would go to prison too?"

"Don't be a fool," Brent snapped at her. "I'll be safely out of it. You'll be left to stand the gap alone. Your exposure will come through information that I shall supply directly to the authorities. I'll give the whole thing to the newspapers at the same time. Let your boy friend stand by you then. Suppose you want free—there'd always be a doubt in the public mind about your innocence. What would that mean to Ennis?"

Helen saw at once that it would be irreparable injury to his career, but only the deepening pain in her eyes answered Brent. It was enough.

"Do for him, wouldn't it? Even if he believed you, and there's a good chance that he won't."

Helen had a lucid thought. "He will believe me," she said, "because he will know that I wouldn't have dared to think of marrying him if this were true and you held me in your power."

Brent regarded her admiringly. "Rather clever," he praised. "But not weighty enough. He's apt to imagine you thought you could handle me."

"Oh, you're mendacious!" "Merely determined, my dear, that no upstart like Ennis is going to spoil my plans now."

"Then you think I will consent to go on with this deception . . . this imposture?" Helen cried, amazed that he should know her so little he could believe such a thing possible.

"For the sake of millions, and your liberty, yes," Brent admitted.

# URGES A LABEL ON MERCHANDISE MADE IN PRISON

Committee of Penologists and Others Submit Report to Government

BY JOSEPH H. BAIRD  
United Press Staff Correspondent

Washington, Oct. 21.—(UP)—“Made in America” may rank along with “Made in Germany” as a label on merchandise. If a report made recently to the Commerce Department by a committee of penologists, manufacturers and labor representatives is adopted, it will require that goods made in prison be so labeled.

Impelled by objections of manufacturers to competition by prison-made goods the Commerce Department asked the committee study convict-manufactured merchandise and its effect on trade.

Tagging prison-made products distinctly to identify them from those of “free” labor was recommended by the committee. Two of the members dissented from the report. Given such tags, merchants could sell “prison” and “free” goods at different prices and the buyer could take his choice, the committee said.

Few commodities are affected by prison labor. However, there are certain classes of goods of which the proportion of those manufactured in prisons is substantially higher than the general average. Binder twine was cited as the outstanding example of these. Many shoes, brooms, pieces of furniture and certain types of shirts are made in prisons, it was said.

**States' Sales Differ**

While 11 states sell prison-made products for government (including state, federal, county and municipal) use only, 15 offer their goods to brokers, wholesalers, retailers and consumers, and 24 sell them to private profit in reselling these products to wholesale and retail dealers, the committee found.

Cost of production of prison-made goods was said by the committee to be much less than that of goods made by “free” labor.

It was found that in two institutions making the same class of shoes, prison labor costs were estimated in one at 15 cents while in the other no charge was made for this item. In “free” factories labor costs for the same shoe were found to be 45 cents per pair.

For binder twine labor costs were figured at less than one-half cent per pound in two prisons, as compared with one cent per pound in “free” factories.

Labor costs on work shirts in prison factories operating under contract were figured at 75, 90 and 91.5 cents per dozen shirts, as compared with an average of \$2 per dozen for six free factories.

**No Workman's Compensation**

No prison industry was found paying workman's compensation insurance. In only one prison was it found the contractor paid rent, although in most cases he did pay for light, heat and power.

“If anything approaching normal efficiencies of operation can be attained with the use of prison facilities and labor, the total cost of production are obviously below those of the manufacturer who must meet large overhead expenses as well as employ free labor,” the committee concluded.

Declaring the prison labor problem was essentially a state rather than a federal matter, the committee declared it must be solved, else prisoners must be kept in idleness or free manufacturers competing with prison labor will be impossible.

**Morrisonite Loses**

Washington, Oct. 21.—(UP)—Frank J. Wolber, Morrison, Ill., today was denied a Supreme Court review of his damage suit against the Ford Motor Company resulting from the overturning of a tractor and injuries necessitating amputation of his arm. Wolber won a \$17,000 judgment in district court at Chicago but the Circuit Court of Appeals voided the judgment.

## POLO PERSONALS

Polo—The members of “The Pal Club” and their families numbering about 50, enjoyed a hard-time party at the American Legion Hall Friday evening. The feature of the evening was a play, “The Modern Farmer.” The following were members of the cast, Dan Harris, Willard Webb, Roy Howard, Jack Keegan, John Scholl, “The Modern Farmer,” Francis Keegan, the “Modern Hired Man,” Emerson Witmer, “The Modern Son,” recently returned from college. John Scholl and Willard Webb gave two readings which were very well received. Following the program, delicious refreshments were served.

Mrs. George W. Smith returned home Friday from Chicago, where she had spent the past three weeks with friends. She was accompanied home by Gar Isham, who will spend several days in this vicinity.

Misses Mabel Kitzmiller and Ruth Devaney spent Saturday afternoon in Dixon.

Mr. and Mrs. C. M. Brown of West Chicago spent Thursday and Friday in the Cordyn Munkin home.

Mr. and Mrs. Philip Soto of Dixon spent the week end at the Mrs. Elizabeth Duffey home.

Miss Lillian Schell who teaches in Chicago was home over the week-end.

Mrs. Edward Thorpe, son Rodney and daughter Louisa spent Friday in Freeport with the former's sister, Mrs. Eugene Downs.

Mrs. T. E. Beck spent Saturday afternoon in Dixon.

Miss Lillian Schell, who teaches

In Chicago spent the week end at her home in this city.  
Mrs. Bertha Kendall of Oregon visited relatives in Polo Saturday.

## Chicago Radio Show Opens at Coliseum

Chicago, Oct. 21.—(AP)—What's what in the latest modes of radio-dom went on display today with the opening of the eighth annual radio show.

One million dollars worth of exhibits are being shown by 300 dealers and manufacturers. The display takes the capacity of the Coliseum, overflowing from the main exposition room into two annexes.

President Walter Dill Scott of Northwestern University and Ruth Hanna McCormick, Illinois Congresswoman-at-large, will make the principal addresses at tonight's inaugural ceremony, to be featured by an elaborate pageant.

## Fewer Convictions in Prohibition Cases

Washington, Oct. 21.—(AP)—An increased total of prohibition cases instituted in the federal courts and a decreased number of convictions for the fiscal year which ended June 30, 1929, as compared with the year previous, are shown in statistics compiled by the Justice Department.

Cases instituted in 1929 totaled 110,655, of which 86,348 were criminal, an increase of 1000. At the same time there were 47,100 convictions, or 1700 fewer than in 1928. The department however, pointed out that \$7,476,300 was collected in fines in 1929.

Liquor cases, the report said, made up two-thirds of the criminal docket of the federal district courts.

## Hadley Will Defend Alleged Murderess

Toulon, Ill., Oct. 21.—(AP)—A jury was to be selected today to try Laura Weaver on the charge of murdering her sweetheart, Wilmer T. Kitzelman, last June.

The prosecution has intimated it will rely upon Miss Weaver's own admission that she strangled Kitzelman in his sleep, bundled the body in a blanket, and carried it in an automobile to a lonely road, where she burned it.

Miss Weaver has spent her time in the Stark county jail preparing a special costume to wear during the trial. She will be defended by Attorney Charles W. Hadley of Wheaton, Ill., who is chairman of the Illinois Commerce Commission. W. W. Wright of Toulon, Ill. will assist Hadley.

The trial is expected to draw a large gallery as did the last sensational case here in 1926, when Joseph Stemas, Toluca miner, was tried for the slaying of two policemen.

## State Fair Manager

Springfield, Ill., Oct. 21.—(UP)—Milton Jones, Williamsville, was appointed State Fair Manager to succeed Walter Landley resigned, by Governor Louis L. Emmerson, here today.

Jones had the endorsement of Republicans in Saratoga county and had had been recommended by a number of agricultural organizations of state and national importance.

Landley is one of the best known fair men in the west and before becoming manager of the exposition, he was prominent in harness racing with which he is still identified.
